Jo Sanders,Janice Koch,Josephine Urso,2013-12-16 What makes girls avoid math science and technology in school And what  
can teacher educators do to help new teachers keep this from happening so that all of our children s talents can find  
expression These two volumes provide teaching materials and background information on gender equity for teacher  
educators in mathematics science and technology education and their students A practical guide Gender Equity Right from  
the Start is usable by professors of education for preservice teachers and by staff developers for in service teachers By  
adapting the material for other subjects it can also be used by teacher educators in content areas other than math science  
and technology It consists of two volumes Instructional Activities for Teacher Educators in Mathematics Science and  
Technology contains some 200 teaching activities on the major issues in gender equity emphasizing solutions and not just  
problems Activities take place in out of class assignments and field experiences whenever possible to minimize demands on  
class time Sources and Resources for Education Students in Mathematics Science and Technology contains student materials  
needed for the activities as well as extensive print electronic organizational and other resources for further information

**Classrooms** Chiara Andrà,Domenico Brunetto,Esther Levenson,Peter Liljedahl,2017-05-03 The book presents a selection of  
the most relevant talks given at the 21st MAVI conference held at the Politecnico di Milano The first section is dedicated to  
classroom practices and beliefs regarding those practices taking a look at prospective or practicing teachers views of  
different practices such as decision making the roles of explanations problem solving patterning and the use of play Of major  
interest to MAVI participants is the relationship between teachers professed beliefs and classroom practice aspects that  
provide the focus of the second section Three papers deal with teacher change which is notoriously difficult even when the  
teachers themselves are interested in changing their practice In turn the book s third section centers on the undercurrents of  
teaching and learning mathematics which can surface in various situations causing tensions and inconsistencies The last  
section of this book takes a look at emerging themes in affect related research with a particular focus on attitudes towards  
assessment The book offers a valuable resource for all teachers and researchers working in this area      **El-Hi Textbooks in**
