## Personal response

The locals regard Moishe the Beadle as an outcast because of his treatment. He no longer receives the respect he once did. After escaping the Nazis' plan to exterminate all foreign Jews, he tells others about what happened and warns them to be cautious. But no one pays attention. They should have consoled Moishe and supported him through this.

All foreign Jews were deported, they were moved into ghettos, there were special meetings, and a person went to Budapest and saw that all the Jews were in ghettos, according to certain reports. The people of Sighet did not feel they were in danger since they believed their town was so far away that they would be unaffected and that the Germans were so good to them.

### Question 3

80 people jammed on a cattle vehicle with minimal food and water  
Madame Schächter's behavior in detecting the approaching fire was met with gagging, restraining, and beatings by the Jews.  
When things don't go as planned, human nature indicates that all morality are thrown out the window.

### Q4

She had visions and kept describing "flames" and a "big fire" to everyone. Her shouts were not reassuring because the train was hot and stuffy. Everyone saw fire and flames when they arrived at Auschwitz-Birkenau.

**Politicians at Night** Gonen Dori-Hacohen, Eean Grimshaw, Menno H. Reijven, 2024-02-19 *Politicians at Night* Interaction and Discourse on the Entertainment Political Interview studies the exchanges between presidential candidates and talk show hosts on broadcast late night shows in the United States. Gonen Dori-Hacohen, Eean Grimshaw, and Menno H. Reijven use various language and social interaction frameworks including membership categorization analysis, conversation analysis, narrative analysis, and semiotics. They develop a broad understanding of the Entertainment Political Interview (EPI) and cultural role. They discuss how politicians use pronouns to achieve inclusion and exclusion. Similarly, the authors demonstrate how and why the hosts ask softball questions. Unlike these two elements that create politics, the authors demonstrate how politicians use stories to present themselves like celebrities. They then demonstrate how politicians intersect with entertainment when they analyze one specific segment called *Slow Jam* on *The Tonight Show* with Jimmy Fallon. The linking of the politician to entertainment is part of the final argument of the book where the authors critically examine the EPI as part of a myth since it vacates the politics of its original form while maintaining a facade of politics. EPI promotes a capitalist neoliberal ideology that is at the root of both entertainment and politics in the U.S. **CUCET MA Psychology**

*The Book of Answers* Tanya Stivers, 2022. Imagine for a moment the only way to confirm a yes/no question was by saying 'Yeah'. How different would this make our communication? Relying on a large corpus of naturally occurring recordings of spontaneous social interaction, this book explores all of the ways that we confirm questions in our everyday social lives. Tanya Stivers analyzes what these different ways of responding allow us to do that is unique to each answer type. When do we answer with 'Yeah' rather than 'He is' for instance, or when do we use more complicated forms of confirming? This information provides us with the basic response possibility space. From that point, we can examine what the range of responses in particular answers tells us about what is important to us in managing social relationships through social interaction. The book explains that we can conceptualize the response possibility space as having three dimensions: alignment

autonomy and affiliation Speakers rely on the details of their response to position themselves at a particular point in that three dimensional space sometimes accepting trade offs among the dimensions to achieve a stance that is higher in alignment and autonomy and lower in affiliation or higher in affiliation and autonomy but lower in alignment The Book of Answers uses real life conversations to find hidden patterns in how we do things together such as reach decisions tell stories or arrive at agreement or disagreement Delving into the science of how we talk this book investigates what those patterns tell us about human communication and our social lives      Emergency Medicine PreTest Kristi L.
