Retaining Your Customers Learn How To Retain Customers:

Retaining Your Customers Maria Edwards, 2015-01-07 One sided persuasion is not sustainable and is often insulting especially when handling complaints. Trust and empathy are far more important in achieving and sustaining successful personal and business relationships. [Read more](#) **Exceptional Customer Service- Retaining your Customers for Life!** GERARD ASSEY, 2021-04-12 No business today can afford to ignore two very important people: 2C's: Your Customer and Your Competitor. The person in front of you is your Customer and if this person is not treated well then the person behind you, Your Competitor, is just waiting to grab him as he drops from your list. Therefore, knowing how to win and retain customers is the single most important business skill that anyone can learn. The business world makes way for the person who brings in the business and the money and that's the person who wins and keeps customers. In today's service-oriented economy, excellent service is more than a competitive weapon; it's a survival skill. But distressingly, only a few organizations are really delighting their customers. Rest assured that if you don't provide this excellent service, someone else will. This therefore has to be the key focus of every organization to remind themselves that every single person in the organization, from the topmost person right to the lowest in rank, can effect or have an impact on customers by the way they treat them and therefore must have the hat of a Customer Service Professional always on. Sales and Service are not to be looked at as separate functions. They are two sides of the same coin, both having the same ultimate goal: To satisfy the customer. In today's world, it's even more important where Sales, Marketing, Service, and Operations share a common goal: Creating and Retaining Customers. And to create and retain customers, we have to combine Good Selling with Good Service. And remember, delivering Exceptional Customer Service that makes a positive, lasting impression on customers takes more than courtesy; it's much more. It starts with understanding that Exceptional Customer Service is from the customer's point of view. Many organizations spend a lot of time looking inwards and are organized accordingly. The truly customer-centered organization takes time to think through the procedures and systems that work best for the customer. This puts the customer at the very center of the organization. What you do, how you do it, how well it must be done, and proving it can be done again and again are only the fundamentals, and this book, **Exceptional Customer Service: Retaining your Customers for Life**, will help you do just that. It will help create a memorable experience for every customer by meeting expectations and going beyond, satisfying their needs, making it easy to do business, thereby making everybody win: The Customer, your Company, and the Employees. **The Retention Formula: Keeping Your Best Customers for the Long Haul** Ajah Excel, 2025-01-21 The Retention Formula: Keeping Your Best Customers for the Long Haul is an essential playbook for businesses that want to turn short-term customers into lifelong loyal advocates. In today's world, where customer loyalty is hard to come by and competition is always lurking, retaining your best customers is the key to long-term success and sustainable growth. A STUDY ON CUSTOMER SATISFACTION AND RETENTION IN THE TELECOMMUNICATION INDUSTRY; AN EMPIRICAL STUDY OF THE NEW JUABEN MUNICIPALITY COLLINS MARFO AGYEMAN, 2013-06-11

This is about the Telecommunication Industry in the New Juaben Municipality of Ghana. From being a monopoly, the market has switched into a more competitive market with more competitors that offer more services. Increased in the number of networks together with high expectation of consumers for quality services have brought about a very keen competition in the industry. There has been a lot of rivalry from the various competitors such as MTN, Vodafone, Tigo, Zain, and Kasapa. There is the continuous switching or defecting of customers from one network to the other if one's service is deemed as less quality. It is easier for Telecommunication providers to acquire customers but are they really satisfied with their offerings in order to be retained overtime?
