Teacher's Notes Elsie Nelley, Anne Smith, 2000-02-17 Quadrilingual Education in Singapore Rita Elaine Silver, Wendy D. Bokhorst-Heng, 2016-01-21 This book explores Singapore's language education system. Unlike previous volumes which discuss the bilingual requirement for learning, it focuses on Singapore's quadrilingual system, bringing together articles on each of the four languages: English, Mandarin, Malay, and Tamil, as well as articles that examine more than one language. It highlights past successes, current concerns, and future directions for language education. The book focuses on classroom pedagogy in all four official languages, showcasing how languages are taught and learned in Singapore as a basis for better understanding the system from the inside out. The authors present empirical classroom-based studies on language pedagogy in all four languages, as well as updated information on the current socio-political context and how it has influenced attempts at pedagogical innovation. Consideration is given to the dialectical relationship between policy and practice. The chapters also include discussions of pre-school age learning, influences of language policy, home literacy practices, and commentaries by international language in education scholars. This approach also provides a basis for international comparison, especially for those who are interested in fostering English proficiency while maintaining one or more national languages. The volume is particularly important in light of the continuing international efforts to integrate English into national educational systems where it is not the dominant language.

Reading Success in the Primary Years Marleen F. Westerveld, Rebecca M. Armstrong, Georgina M. Barton, 2020-05-19 This open access book describes the Reading Success project in which a 5-step assessment-to-intervention process based on the Simple View of Reading was used within a primary school setting in Australia to better support those students who struggle with reading. It provides an easily accessible overview of each step of the process involved in implementing this approach and highlights the crucial importance of collaboration between professionals involved in the teaching of reading within a school setting. It focuses on the decision-making processes used, such as rich dialogue with the leadership team and teachers, and shares participants' perspectives gathered throughout the project. Using case studies, the book describes how the 5-step approach assists in creating detailed profiles of students' strengths and weaknesses in spoken and written language skills that can be used to guide targeted intervention. This book offers valuable insights for educators, speech pathologists, researchers, and pre-service teacher education students interested in the teaching of reading.
