The Blair Witch Project Peter Turner, 2015-05-26 Few films have had the influence and impact of *The Blair Witch Project* 1999 Its arrival was a horror cinema palette cleanser after a decade of serial killers and postmodern intertextuality a bare bones found footage trend setter In this *Devil's Advocate* Peter Turner tells the story of the film from his conception and production then provides a unique analysis of the techniques used their appeal to audiences and the themes that helped make the film such an international hit including the pioneering internet marketing *Design in Motion* Penny Hilton, 2020-03-05 With an abundance of information on how to create motion graphics already available *Design in Motion* focuses on the why of moving image and less about the how By unpacking the reasons behind screen designer's production choices each chapter deconstructs examples of motion graphics by drawing on case studies of both familiar examples from contemporary cinema and unseen work from postgraduate motion graphic designers It examines the value of image text motion camera and transitions explaining in detail why some methods work while others fail Whether you work in info graphics documentary or design this book is structured to follow the production process and together with its multimedia companion website will be a by your side companion to guide you through your next project **The Nazi Worker** Sabine Hake, 2023-10-24 *The Nazi Worker* is the second in a three volume project on the figure of the worker and by extension questions of class in twentieth century German culture It is based on extensive research in the archives and informed by recent debates on the politics of emotion the end of class and the future of work In seven chapters the book reconstructs the processes by which National Socialism appropriated aspects of working class culture and socialist politics and translated class based identifications into the racialized communitarianism of Volksgemeinschaft folk community Arbeitertum workerdom the operative term within these processes of appropriation not only established a discursive framework for integrating proletarian legacies into the cult of the German worker As a social imaginary workerdom also modelled the work related emotions e.g. joy pride essential to the culture of work promoted by the German Labor Front The contribution of images and stories in creating these new social imaginaries will be reconstructed through highly contextualized readings of the debates about workerdom Nazi movement novels worker's poetry workers sculpture as well as industrial painting photography film and design *Sub Culture* John Medhurst, 2022-08-29 A deep dive into the significance of submarines across everything from warfare and politics to literature and film *Sub Culture* explores the crucial role of the submarine in modern history its contribution to scientific progress and maritime exploration and how it has been portrayed in art literature fantasy and film Ranging from the American Civil War to the destruction of the Russian submarine Kursk in 2000 the book examines the submarine's activities in the First and Second World Wars the Cold War and in covert operations and marine exploration to the present day Citing the submarine particularly the nuclear submarine as both ultimate deterrent and doomsday weapon *Sub Culture* examines how its portrayal in popular culture has reinforced and occasionally undermined the

military and political agendas of the nation states that deploy it Industrial Light & Magic Mark Cotta Vaz, Patricia Rose Duignan, 1996 The way that special effects are designed and then created in films is explained in this lavishly illustrated book that traces the development of the ILM company of George Lucas Catalog Southwestern Indian Polytechnic Institute, 1994 *Space, Mobility, and Crisis in Mega-Event Organisation* Rodanthi Tzanelli, 2022-11-25 This book advances an alternative critical posthumanist approach to mega event organisation taking into account both the new and the old crises which humanity and our planet face Taking the delayed Tokyo 2020 Olympic Games as a case study Tzanelli explores mega event crisis and risk management in the era of extreme urbanisation natural disasters global pandemic and technoscientific control Using the atmospheric term irradiation a technology of glamour and transparency as well as bodily penetration by harmful agents and strong affects the book explores this epistemological statement diachronically via Tokyo's relationship with Western forms of domination and synchronically the city as a global cultural political player but victim of climate catastrophes It presents how the Olympic enterprise's flattening of indigenous environmental place making rhythms and the scientisation of space and place in the Anthropocene lead to reductionisms harmful for a viable programme of planetary recovery An experimental study of the mega event is enacted which considers the researcher's analytical tools and the styles of human and non human mobility during the mega event as reflexive gateways to forms of posthuman flourishing Crossing and bridging disciplinary boundaries the book will appeal to any scholar interested in mobilities theory event and environment studies sociology of knowledge and cultural globalisation *The Encyclopedia of Politics and Religion* Robert Wuthnow, 2013-12-04 Containing over 200 articles from prominent scholars The Encyclopedia of Politics and Religion examines ways in which politics and religion have combined to affect social attitudes spark collective action and influence policy over the last two hundred years With a focus that covers broad themes like millenarian movements and pluralism and a scope that takes in religious and political systems throughout the world the Encyclopedia is essential for its contemporary as well as historical coverage Special Features Encompasses religions individuals geographical regions institutions and events Describes the history of relations between religion and politics Longer articles contain brief bibliographies Attractively designed and produced The Encyclopedia of Politics and Religion will be invaluable for any library public and academic which serves those interested in politics sociology religious studies international affairs and history Contents include Abortion Algeria Anabaptists China Christian Democracy Ethnic Cleansing Gandhi Israel Italy Jesuits Jihad Just War Missionaries Moral Majority Muslim Brethren Temperance Movements Unification Church War Zionism **Poetic Castles in Spain** Diego Saglia, 2021-12-28 British culture of the Romantic period is distinguished by a protracted and varied interest in things Spanish The climax in the publication of fictional and especially poetical narratives on Spain corresponds with the intense phase of Anglo Iberian exchanges delimited by the Peninsular War 1808-14 on the one hand and the Spanish experiment of a constitutional monarchy that lasted from 1820 until 1823 on the other Although current scholarship has

uncovered and reconstructed several foreign maps of British Romanticism from the Orient to the South Seas exotic European geographies have not received much attention Spain in particular is one of the most neglected of these imaginary Romantic geographies even if between the 1800s and the 1820s and beyond it was a site of wars and invasions the object of foreign economic interests relating to its American colonies and a geopolitical area crucial to the European balance designed by the post Waterloo Vienna settlement This study considers the various ways in which Spain figured in Romantic narrative verse recovering the discursive materials employed in fictional representation and assessing the relevance of this activity in the context of the dominant themes and preoccupations in contemporary British culture The texts examined here include medievalizing and chivalric fictions Orientalist adventures set in Islamic Granada and modern day tales of the anti Napoleonic campaign in the Peninsula Recovering some of the outstanding works and issues elaborated by British Romanticism through the cultural geography of Spain this study shows that the Iberian country was an inexhaustible source of imaginative materials for British culture at a time when its imperial boundaries were expanding and its geopolitical influence was increasing in Europe and overseas
