The Saṃbandha-Samuddeśa (Chapter on Relation) and Bhartṛhari's Philosophy of Language Jan Houben, 2022-08-01 In the history of the Indian grammatical tradition Bhart hari about fifth century C E is the fourth great grammarian after P ini K ty yana and Pata jali and the first to make the philosophical aspects of language and grammar the main subject of an independent work This work the V kyapad ya VP consists of about 2000 philosophical couplets or k rik s Since the latter half of the nineteenth century the VP has been known to Western Sanskritists but its language philosophical contents have started to receive serious attention only in the last few decennia The subject matter of the VP resonates strongly with crucial themes in twentieth century Western thought although the background and the way the issues are elaborated are quite different Scholars have compared and contrasted Bhart hari s ideas with those of de Saussure Wittgenstein and Derrida A theme which as a leitmotiv pervades the entire VP is the relation between language thought and reality In several Indian traditions a proper insight into this relation was and still is held to be of importance for attaining liberation

The result of extensive archival recovery work Ellen Brinks's study fills a significant gap in our understanding of women's literary history of the South Asian subcontinent under colonialism and of Indian women's contributions and responses to developing cultural and political nationalism As Brinks shows the invisibility of Anglophone Indian women writers cannot be explained simply as a matter of colonial marginalization or as a function of dominant theoretical approaches that reduce Indian women to the status of figures or tropes The received narrative that British imperialism in India was perpetuated with little cultural contact between the colonizers and the colonized population is complicated by writers such as Toru Dutt Krupabai Sathianadhan Pandita Ramabai Cornelia Sorabji and Sarojini Naidu All five women found large audiences for their literary works in India and in Great Britain and all five were also deeply rooted in and connected to both South Asian and Western cultures Their works created new zones of cultural contact and exchange that challenge postcolonial theory's tendencies towards abstract notions of the colonized women as passive and of English as a de facto instrument of cultural domination Brinks's close readings of these texts suggest new ways of reading a range of issues central to postcolonial studies the relationship of colonized women to the metropolitan literary culture Indian and English women's separate and joint engagements in reformist and nationalist struggles the translatability of culture the articulation strategies and complex negotiations of self identification of Anglophone Indian women writers and the significance and place of cultural difference **Dictionary Catalog of the**
