The Early Public Garages of San Francisco Mark D. Kessler,2013-04-26 In the quarter century from San Francisco s devastating fire of 1906 to the beginning of the Great Depression as automobiles exploded in popularity new buildings had to be conceived and constructed to provide parking space and repair facilities This book studies a number of the resulting public garages that featured facade designs based on historical architectural styles Considering the garages function the facades exhibit a surprising grace and nobility Through an analysis complemented by photographs including sixty by noted architectural photographer Sharon Risedorph and drawings the author dissects the architectural and cultural factors that lie at the heart of this unexpected merit Addressing the discrepancy between the buildings beauty and the assumption that old garages are unsightly and disposable the book examines them as cultural artifacts of the dawn of the Motor Age The garage is presented as a new form of transportation depot employing architectural symbolism to celebrate the ascendancy of the automobile over the train Today the surviving buildings are vulnerable to real estate development in part because their quality is misunderstood The book a fresh perspective on the value of older utilitarian buildings concludes with a call to preserve these structures and adapt them to compatible new uses Spain in North America: Selected Sources on Spanish Colonial History, Archeology, Architecture and Art, and Material Culture Dan Scurlock,1973 *American Artist* Ernest William Watson,Arthur Leighton Guptill,1966 **Teotihuacan** Matthew Robb,2017-09-26 Founded in the first century BCE near a set of natural springs in an otherwise dry northeastern corner of the Valley of Mexico the ancient metropolis of Teotihuacan was on a symbolic level a city of elements With a multiethnic population of perhaps one hundred thousand at its peak in 400 CE it was the cultural political economic and religious center of ancient Mesoamerica A devastating fire in the city center led to a rapid decline after the middle of the sixth century but Teotihuacan was never completely abandoned or forgotten the Aztecs revered the city and its monuments giving many of them the names we still use today Teotihuacan City of Water City of Fire examines new discoveries from the three main pyramids at the site the Sun Pyramid the Moon Pyramid and at the center of the Ciudadela complex the Feathered Serpent Pyramid which have fundamentally changed our understanding of the city s history With illustrations of the major objects from Mexico City s Museo Nacional de Antropologia and from the museums and storage facilities of the Zona de Monumentos Arqueologicos de Teotihuacan along with selected works from US and European collections the catalogue examines these cultural artifacts to understand the roles that offerings of objects and programs of monumental sculpture and murals throughout the city played in the lives of Teotihuacan
