Tough on Criminal Wealth Barbara Vettori, 2007-09-21 Based on the expertise of thirty leading experts on confiscation in the EU this is the first book to analyse the practice of proceeds from crime confiscation in the original fifteen EU Member States It examines the implementation of confiscation provisions in all three investigative judicial and disposal phases of confiscation proceedings It quantifies the enforcement of confiscation provisions in the EU using an innovative and unique methodology and thereby furnishes understanding of obstacles and best practices The conclusion of the book is that the tough on criminal wealth philosophy is largely alien to the everyday practice of law enforcement agencies Putting criminals behind bars is still the main aim of the system and most of the scarce resources available are devoted to achieving this This title is of interest to academics and students in the fields of criminology sociology and law as well as to law enforcement officers public prosecutors and policymakers

New Labour and the Civil Service D. Richards, 2007-11-12 This is the first serious study to analyze Labour s approach to the Civil Service It offers a theoretically engaged empirically rich analysis drawing from over 300 interviews with key actors to explore the New Labour effect on Whitehall It considers 1997 transition process and the extent to which reform has improved public service delivery

Modernizing Governance Janet Newman, 2001-08-03 Explores the politics and policies of New Labour and asks how far they represent a shift in the governance of the UK back cover

Skills in Business Johnny Sung, David N Ashton, 2014-11-03 Johnny Sung and David Ashton are two of the leading scholars in the area of skills This book combines challenging theories with cutting edge research in a way that should bring skills to life for students I strongly recommend it for anyone researching or studying in this area Irena Grugulis Leeds University Business

School A much needed contribution to the complex debate of how skills can best be utilised to enhance company performance with particular emphasis on an innovative sectoral approach It is a model of clarity in its presentation of the authors conceptual models using a historical narrative as well as comparative case studies in both the UK and Singapore Bert Clough Leeds University Business School Public skills policy in most market economies in the last forty years made one repeated error time and again We seem to be unable to learn from those mistakes Consistently public policies view a wide range of economic and social issues e g low productivity low skilled jobs low wage inequality and in work poverty as the consequence of skills deficits and a lack of qualifications held by individual workers Whilst mis diagnosing the source of the problems and failing to deliver any effective change public skills policies continue with a policy prescription of more skills and more degrees If we have not solved the problems with this decade old approach why should the same medicine work this time This book examines the role of public skills policy from a completely different perspective It starts by challenging the lack of a systematic analysis of the link between skills utilisation and business strategy and provides a new model for fresh thinking The book extends this theoretical analysis to examine the implications for the sectoral approach to skills development as a more effective form of public skills policy David N Ashton is Emeritus Professor at the University of Leicester and Honorary Professor at Cardiff University Johnny Sung is at The Institute for Adult Learning Singapore Workforce Development Agency Singapore

Renewable Electricity and the Grid Godfrey Boyle, 2012-05-04 Integrating intermittent renewable energy sources like wind into electricity systems must be one of the most misunderstood issues in energy policy This edited volume brings together a unique series of authoritative articles on the topic There should be no excuse for misunderstanding from now on JIM SKEA RESEARCH DIRECTOR UK ENERGY RESEARCH CENTRE The future design and operation of electric power systems with large injections of renewable energy generation is the subject of much debate and some misunderstanding This timely book from a number of authors with expertise in the area makes an important contribution to our understanding of this topic NICK JENKINS PROFESSOR OF ENERGY SYSTEMS UNIVERSITY OF MANCHESTER We know the future will be different from the past This book predicts how large proportions of renewable energy can be incorporated into electricity grids without harm from the natural variability of these supplies The chapter authors have different approaches and vision yet the overall message is positive Not only can we move to dominant use of renewable electricity but we can do so utilizing many technological and efficiency improvements with consumers benefiting from clean electricity at acceptable cost PROFESSOR JOHN TWIDELL GENERAL EDITOR WIND ENGINEERING Anyone interested in renewable electricity will find this book an important reference It answers many of the questions so often raised in public debates Sherkin Comment Can renewable energy provide reliable power Will it need extensive backup The energy available from wind waves tides and the sun varies in ways that may not match variations in energy demand Assimilating these fluctuations can affect the operation and economics of electricity networks markets and the output of other forms of

generation Is this a significant problem or can these new sources be integrated into the grid system without the need for extensive backup or energy storage capacity This book examines the significance of the issue of variability of renewable electricity supplies and presents technical and operational solutions to the problem of reconciling the differing patterns of supply and demand Its chapters are authored by leading experts in the field who aim to explain and quantify the impacts of variability in renewable energy and in doing so dispel many of the myths and misunderstandings surrounding the topic

Governance for Sustainable Development Five OECD Case Studies OECD,2002-02-06 This publication presents five governmental experiments aimed at promoting sustainable development in Canada Germany Japan the Netherlands and the United Kingdom The British Constitution in the Twentieth Century Vernon Bogdanor,2004-06-10 This is the first scholarly survey of the British constitution in the twentieth century Indeed it fills a very real gap in the history of Britain during the last hundred years The book is a product of interdisciplinary collaboration by a distinguished group of constitutional lawyers historians and political scientists and draws where possible on primary sources Its evaluation of the recent constitutional reforms will be of particular interest This major interpretation of the constitution will remain authoritative for many years
