Reteaching Activity 17 Becoming World Power Answers:

History of the United States Thomas V. DiBacco, Lorna C. Mason, Christian G. Appy, 1991 The Power of the Periphery Peder Anker, 2020-05-28 What is the source of Norway's culture of environmental harmony in our troubled world? Exploring the role of Norwegian scholar activists of the late twentieth century, Peder Anker examines how they portrayed their country as a place of environmental stability in a world filled with tension. In contrast with societies dirtied by the hot and cold wars of the twentieth century, Norway's power, they argued, lay in the pristine ideal natural environment of the periphery. Globally, a beautiful Norway came to be contrasted with a polluted world and fashioned as an ecological microcosm for the creation of a better global macrocosm. In this innovative interdisciplinary history, Anker explores the ways in which ecological concerns were imported via Rachel Carson's *Silent Spring* in 1962, then to be exported from Norway back to the world at the Earth Summit in Rio de Janeiro in 1992. This title is also available as Open Access on Cambridge Core.

Resources in Education, 1990 Science in Your World: Teacher edition Jay K. Hackett, 1991 *American Girls and Global Responsibility* Jennifer Helgren, 2017-04-17 *American Girls and Global Responsibility* brings together insights from Cold War culture studies, girls studies, and the history of gender and militarization to shed new light on how age and gender work together to form categories of citizenship. Jennifer Helgren argues that a new internationalist girl citizenship took root in the country in the years following World War II in youth organizations such as Camp Fire Girls, Girl Scouts, YWCA, Y Teens, schools, and even magazines like *Seventeen*. She shows the particular ways that girls' identities and roles were configured and reveals the links between internationalist youth culture, mainstream U.S. educational goals, and the U.S. government in creating and marketing that internationalist girl, thus shaping the girl's sense of responsibilities as citizens. *World History* Larry S. Krieger, Kenneth Neill, Steven L. Jantzen, 1994-02 **Research Methods in Intercultural Communication** Zhu Hua, 2016-01-19 *Research Methods in Intercultural Communication* introduces and contextualizes the most important methodological issues in the field for upper-level undergraduate and graduate students. Examples of these issues are which paradigms and how to research multilingually, interculturally, and ethnically. Provides the first dedicated and most comprehensive volume on research methods in intercultural communication research in the last 30 years. Explains new and emerging methods as well as more established ones. These include Matched Guise Technique, Discourse Completion Task, Critical Incident Technique, Critical Discourse Analysis, Ethnography, Virtual Ethnography, Corpus Analysis, Multimodality, Conversation Analysis, Narrative Analysis, Questionnaire, and Interview. Assists readers in determining the most suitable method for various research questions, conceptualizing the research process, interpreting results, and drawing conclusions. Supports students from start to finish with key terms, suggestions for further reading, research summaries, and sound guidance from experienced scholars and researchers. **Journal of the American Medical Association**, 1912 *World*, 1997 *Thucydides, Hobbes, and the Interpretation of Realism* Laurie M. Johnson, 2020-01-15 This original book has been

consistently cited by scholars of international relations who explore the roots of realism in Thucydides's history and the political philosophy of Thomas Hobbes. While acknowledging that neither thinker fits perfectly within the confines of international relations realism, Laurie M. Johnson proposes Hobbes's philosophy is more closely aligned with it than Thucydides's.

Breaking Bad Habits of Race and Gender Sarah Marie Stitzlein, 2008-10-23 Every day teachers encounter moments of racial and gender tension in their classrooms. In the most drastic cases, these situations erupt into overt conflict or violence, while in other instances they go largely unnoticed. Such incidents reveal that despite equality legislation and the good intentions of many teachers, racial and gender problems persist. How can teachers more effectively handle these moments? How can they prevent them in the future? This book is the first to unite two major schools of educational philosophy: traditional American pragmatism and contemporary poststructuralism, to offer both theoretical and concrete suggestions for dealing with actual classroom race and gender-related events. While schools are one of the most common settings of race and gender discord, this book upholds schools as the primary location for alleviating systems of oppression. For it is within schools that children learn how to enact and respond to race and gender through the cultivation of habits, including dispositions, bodily comportment, and ways of interacting. In a spirit of social transformation, this book argues that when students learn to inhabit their races and genders more flexibly, many classroom problems can be prevented and current social structures of identity-based oppression can be alleviated.
