Chapters 7 and 12 plus Readings on Module 11
HDFS 4533.50 Communication and the Family

Students,

Chapter reviews are more formal than our discussion boards and are longer, so they are worth more points. Most of you are citing either the book or the article assigned for that week as requested. Now, let's refine your use of citations just a bit more. I am requesting that you limit your quotes to one quote per assignment AND that you limit your citations to only two per answer to any question. At the bottom of the page, please reference our textbook and the article that you read. Consult the Rubric file on Module 1 if you have questions about how to reference. You can also consult your APA Manual 7th ed. – chapter 10.

Please leave the questions in your paper – it is confusing to grade papers without the questions or at least the question numbers!

Chapter 7 (7 points)

Question 1: Read the section on *Gender Norms and Family Life* and both tables 7.1 and 7.2 (pp. 193-195). Using the information in this section, explain three differences OR similarities that you found between your two couples in about 150 words (1.5 pts). (If you interviewed old friends in Interview #2, please compare your couple in Interview 1 with either table in this reading).

The first interview conducted focused around a same-sex couple, two females in their thirties, while the second interview centered on a heterosexual couple in their sixties. Olson et al. (2022) explored role issues in happy versus unhappy couples, and for the sake of discussion the following three role issues will be discussed: household tasks are divided on the basis of preferences, partners make most decisions jointly, and both partners are equally willing to make adjustments in their marriage. Though the couples interviewed were of mixed genders, both couples reported to be happy couples in the three role issues explored. The same-sex couple interviewed specifically stated it was important to share housework equally, however the heterosexual couple stated the wife did the majority of the housework due to the husband's high demand work schedule. The wife in the second interview did not seem concerned with the unequal distribution of housework due to the circumstances of her husband's career. Also similar to the research from Olson et al. (2022), both couples made the majority of major decisions as a couple and to make adjustments to their marriage when an issue arises.

Question 2: In the future, you are a parent educator. One of the couples in your class stops to talk with you after class about their difficulties sharing care giving responsibility for their two young children (2 and 4 years old). As they are talking, you recognize that their issue involves maternal gatekeeping (p. 197). Review our text and then discuss three pieces of advice that you would give to this couple to help them resolve this issue. (125-150 words) (1.5 pts)
