Sanc Past Exam Papers Bridging Course

S Ben Porath

Sanc Past Exam Papers Bridging Course:

Criminological Theories Suzette Cote, 2002-03-19 This anthology is a superb collection of 36 articles covering all of the major theories past and present that inform criminology today What truly sets this volume apart is the inclusion of many articles discussing novel and often overlooked perspectives in criminological theory In fact many of these articles have never before been included in a reader Each article is framed by an introductory overview discussing the article's importance the context for its development and the author and concludes with discussion questions These articles include a thorough examination of topics such as white collar crime and developmental criminology as well a discussions of integrated theories that consider genetics psychology and environmental approaches As most journal articles are typically written for a professional audience the original articles have been substantially edited and abridged to make them more accessible to students The resulting reader will prove to be an invaluable resource for any undergraduate or graduate course where criminological theory plays a central role
