The Monkey's Voyage Alan de Queiroz,2014-01-07 Throughout the world closely related species are found on landmasses separated by wide stretches of ocean What explains these far flung distributions Why are such species found where they are across the Earth Since the discovery of plate tectonics scientists have conjectured that plants and animals were scattered over the globe by riding pieces of ancient supercontinents as they broke up In the past decade however that theory has foundered as the genomic revolution has made reams of new data available And the data has revealed an extraordinary stranger than fiction story that has sparked a scientific upheaval In *The Monkey s Voyage* biologist Alan de Queiroz describes the radical new view of how fragmented distributions came into being frogs and mammals rode on

rafts and icebergs tiny spiders drifted on storm winds and plant seeds were carried in the plumage of sea going birds to create the map of life we see today In other words these organisms were not simply constrained by continental fate they were the makers of their own geographic destiny And as de Queiroz shows the effects of oceanic dispersal have been crucial in generating the diversity of life on Earth from monkeys and guinea pigs in South America to beech trees and kiwi birds in New Zealand By toppling the idea that the slow process of continental drift is the main force behind the odd distributions of organisms this theory highlights the dynamic and unpredictable nature of the history of life In the tradition of John McPhee's *Basin and Range* *The Monkey's Voyage* is a beautifully told narrative that strikingly reveals the importance of contingency in history and the nature of scientific discovery Self and Society in the Films of Robert Wise Justin E.A. Busch,2014-01-10

One of the most versatile Hollywood filmmmmakers Robert Wise had a number of renowned films under his directorial belt including *The Day The Earth Stood Still* *West Side Story* *The Sound of Music* and *Star Trek* The Motion Picture Nonetheless Wise remains a rarely studied Hollywood figure while many filmgoers know and love his films few recognize his name This book the first in depth analysis of Wise's cinematic achievement uncovers the elements that link the director's diverse cinematic subjects and examines the ways in which tensions between individuals and their societies are explored His films are seen from a new perspective that will heighten an appreciation for the range and depth of his overall body of work

Innovation and Disruption in the Creative Industries Robert DeFillippi,Patrik Wikström,2014-07-31 This volume examines how disruptive innovations are reshaping industry boundaries and challenging conventional business models and practices in the industries for film video and photography **Dignity, Women, and Immigration Detention** Alice Gerlach,2022-12-30

This book explores the experience of immigration enforcement for women who have been detained in immigration detention in the UK Drawing upon in depth interviews with women who have been in immigration detention centres *Dignity Women and Immigration Detention* demonstrates how immigration detention violates women's sense of dignity and in doing so causes women to suffer pains that are incongruent with the administrative purpose of immigration removal centres The

women interviewed were either detained in an Immigration Removal Centre had spent time in this centre before being released into the UK community or had been removed to Jamaica following time in immigration detention This book argues that the current system used by the UK government is unfit for purpose and damaging to many of those who are ensnared within it In examining dignity violation lack of autonomy and diminishment the book also considers possible alternatives to the current practice of incarceration and what can be done to alleviate the harms that are currently inflicted on women during the process of immigration enforcement in the UK An accessible and compelling read this book will appeal to students scholars and practitioners in criminology sociology law social policy and all those interested in listening to the unheard voices of detained women

The Internet, Warts and All Paul Bernal,2018-08-16 The Internet Warts and All asks questions Why are government digital policies so often out of touch and counter productive Why is surveillance law problematic and ineffective and often defeated in court Do companies like Google and Facebook really care about freedom of speech Why are neither laws nor technology companies able to get to grips with trolling Is fake news something that can be dealt with Can these issues be addressed more effectively intelligently and appropriately in the future To answer these questions The Internet Warts and All busts a number of myths and illusions about the internet about the neutrality of algorithms the permanence of information the impact of surveillance the nature of privacy and more It shows how trolling and fake news arise and why current moves to deal with them are doomed to failure It suggests a way forward by embracing the unruly nature of the internet

American Silent Horror, Science Fiction and Fantasy Feature Films, 1913-1929 John T. Soister,Henry Nicolella,Steve Joyce,2014-01-10 During the Silent Era when most films dealt with dramatic or comedic takes on the boy meets girl boy loses girl theme other motion pictures dared to tackle such topics as rejuvenation revivication mesmerism the supernatural and the grotesque A Daughter of the Gods 1916 The Phantom of the Opera 1925 The Magician 1926 and Seven Footprints to Satan 1929 were among the unusual and startling films containing story elements that went far beyond the realm of highly unlikely Using surviving documentation and their combined expertise the authors catalog and discuss these
