1. Adjust the micrometer setting to 0.
2. Depress the trigger against the handle.

4. To adjust accurately, use a small screwdriver to turn the black calibration screw at the bottom end of the control until reading shows that micrometer was setting correct.

Spend a few minutes on maintenance after each use

1. Never leave products in the spreader. Once release chemical lock into the package and seal the package tightly.
 2. After each use, wash thoroughly to remove all residue clinging to the spreader. Wash water may be required if used to remove stubborn residue. Allow the spreader to dry thoroughly in the sun.
