**Growing Greener Cities** Eugenie L. Birch, Susan M. Wachter, 2011-09-02 Nineteenth century landscape

architect Frederick Law Olmsted described his most famous project the design of New York's Central Park as a democratic development of highest significance. Over the years the significance of green in civic life has grown. In twenty-first century America not only open space but also other issues of sustainability such as potable water and carbon footprints have become crucial elements in the quality of life in the city and surrounding environment. Confronted by a U.S. population that is more than 70 percent urban, growing concern about global warming, rising energy prices and unabated globalization, today's decision makers must find ways to bring urban life into balance with the Earth in order to sustain the natural economic and political environment of the modern city. In *Growing Greener Cities*, a collection of essays on urban sustainability and environmental issues edited by Eugenie L. Birch and Susan M. Wachter, scholars and practitioners alike promote activities that recognize and conserve nature's ability to sustain urban life. These essays demonstrate how partnerships across professional organizations, businesses, advocacy groups, governments and individuals themselves can bring green solutions to cities from London to Seattle. Beyond park and recreational spaces, initiatives that fall under the green umbrella range from public transit and infrastructure improvement to aquifer protection and urban agriculture. *Growing Greener Cities* offers an overview of the urban green movement, case studies in effective policy implementation and tools for measuring and managing success. Thoroughly illustrated with color graphs, maps and photographs, *Growing Greener Cities* provides a panoramic view of urban sustainability and environmental issues for green-minded city planners, policy makers and citizens. **New Jersey Register**, 2013

Residential Interior Design Maureen Mitton, Courtney Nystuen, 2016-04-07 A practical approach to planning residential spaces. *Residential Interior Design: A Guide To Planning Spaces* is the industry standard reference for all aspects of residential space planning with a practical focus on accessible design, ergonomics and how building systems affect each space. This new third edition has been updated with the most recent code information including the 2015 International Residential Code and the International Green Construction Code and new content on remodeling. Packed with hundreds of drawings and photographs, this book illustrates a step-by-step approach to design that applies to any residential space and ensures that the most important factors are weighted heavily in the decision-making process. Daily use is a major consideration and the authors explore the minimum amount of space each room requires to function appropriately while examining the host of additional factors that impact bedrooms, bathrooms, kitchens, hallways and more. Detailed information about accessibility is included in each chapter, making this book a reliable design reference for aging in place and universal design. The new companion website features teaching tools and a variety of learning supplements that help reinforce the material covered. Interior design is a fundamental component of a residential space and a required skill for architecture and design professionals. This book is a complete reference on all aspects of residential design and the factors that make a space work. Design spaces with primary consideration of daily use. Account for building systems, accessibility, human factors and more. Get up-to-date on the latest residential interior building codes. Plan interiors for any home, any style and any budget.

Designing a residential interior is about more than choosing paint colors and furniture it s about people and how they interact and use the space It s about shaping the space to conform to its function in the best possible way Residential Interior Design provides clear comprehensive guidance on getting it right every time
