Nmmu Open Day 2016

Shawn Gouws

Nmmu Open Day 2016:

Chasing Challenges Shawn Gouws, 2025-09-01 Chasing Challenges is the autoethnography of the teaching career of Dr Shawn Gouws a distinguished senior lecturer at Nelson Mandela University After enrolment he studied at the PE Technikon in 1990 and completed his DTech in Chemistry in 1999 After a one year postdoctoral fellowship at LEOPR in Grenoble France he joined the Nelson Mandela University Chemistry Research Department Shawn continued to pursue challenges in various technical support projects at InnoVenton In 2012 he became a programme coordinator and was tasked with developing the course content for the Diploma in Chemical Technology Various industry stakeholders contributed to producing graduates with the necessary attributes and skills for employment in the industry environment This book discusses various education philosophies and levels in Education 10 to 50 and highlights interactions with industry and the language barriers students face and need to overcome to be successful in their studies There is always a new challenge to chase His passion for research is in the area of green hydrogen production To accomplish this task his research will focus on finding alternative catalysts to split water into hydrogen and oxygen using a proton exchange membrane water electrolyser Naturally one objective will be to train graduates to benefit from this emerging industry in South Africa

Open Learning as a Means of Advancing Social Justice Tabisa Mayisela, Shanali Govender, 2024-01-23 This volume investigates the uptake of open learning in South African Technical Vocational Education and Training TVET colleges and higher education institutions Comprised of 16 studies focused on activities at a range of colleges and universities across the country these chapters aim to promote a better understanding of open learning practices across the Post School Education and Training PSET sector including issues such as recognition of prior learning access for students with disabilities work integrated learning professional development novel student funding mechanisms leadership for open educational practices institutional culture student support blended and online learning flexible learning online assessment open educational resource development models and funding and micro credentials This collection of peer reviewed chapters contributes to understanding the ways in which South African PSET institutions and educators are interpreting open learning as a means of advancing social justice It includes a historical and contemporary understanding of the economic cultural and political obstacles facing PSET drawing on Nancy Fraser s theory of social justice as participatory parity to better understand the ways in which open learning may address systemic social injustices in order to allow South African students and educators to thrive This volume emerges from research conducted by the Cases on Open Learning COOL project an initiative by the Department of Higher Education and Training in partnership with the Centre for Innovation in Learning and Teaching CILT at the University of Cape Town UCT in South Africa

Achieving Nelson Mandela University? Sibongile Muthwa, Denver A. Webb, 2024-08-20 South Africa s higher education sector is rooted in the country s divided past A significant State driven restructuring from around 1997 to 2005 resulted in what is largely the current configuration of public universities But just over two decades later for a variety of reasons the

higher education sector in South Africa appears beset with numerous challenges Nelson Mandela University is one of the public universities that emerged from the restructuring process The university is in an ongoing state of evolution of becoming It developed out of the amalgamation of the University of Port Elizabeth Port Elizabeth Technikon and incorporation of the Port Elizabeth campus of Vista University as Nelson Mandela Metropolitan University in 2005 In 2017 it was renamed Nelson Mandela University after the world renowned statesman rather than the metropolitan area in which the university is primarily located The renaming was conceptualised as more than a marketing opportunity to rebrand the university but as an opportunity to reorientate the university to reposition Nelson Mandela University as an engaged and socially embedded university in the service of society striving to be the academic expression of the values and ethos of its iconic namesake Endeavouring to be something greater and different from the norm imbues its strategy public statements and practices The determination to achieve Mandela University serves or is intended to serve as both an organising principle and a lodestar A cross section of writers from different backgrounds situates Nelson Mandela University within the contemporary historical moment from which it emerged and examines its subsequent evolution While Nelson Mandela University has performed the usual work expected of any university it has also sought to turn the university outwards to achieve a higher purpose framing itself as a values based university on a journey to become something else In *Achieving Nelson Mandela University* the university attempts to give an account of itself The book is an intellectual and scholarly reflection on where the university has come from and where it is seeking to go Anchored in Place Leslie Bank, Nico Cloete, 2018-11-05 Tensions in South African universities have traditionally centred around equity particularly access and affordability historical legacies such as apartheid and colonialism and the shape and structure of the higher education system What has not received sufficient attention is the contribution of the university to place based development This volume is the first in South Africa to engage seriously with the place based developmental role of universities In the international literature and policy there has been an increasing integration of the university with place based development especially in cities This volume weighs in on the debate by drawing attention to the place based roles and agency of South African universities in their local towns and cities It acknowledges that universities were given specific development roles in regions homelands and towns under apartheid and comments on why sub national place based development has not been a key theme in post apartheid higher education planning Given the developmental crisis in the country universities could be expected to play a more constructive and meaningful role in the development of their own precincts cities and regions But what should that role be Is there evidence that this is already occurring in South Africa despite the lack of a national policy framework What plans and programmes are in place and what is needed to expand the development agency of universities at the local level Who and what might be involved Where should the focus lie and who might benefit most and why Is there a need perhaps to approach the challenges of college towns secondary cities and metropolitan centers differently This book poses some of these

questions as it considers the experiences of a number of South African universities including Wits Pretoria Nelson Mandela University and especially Fort Hare as one of its post centenary challenges **National Park Science** Jane

Carruthers,2017-08-17 South Africa is renowned for its wildlife and environmental conservation in iconic national parks such as the Kruger one of the world s first formal protected areas However this is the first book to thoroughly analyse and explain the interesting and changing scientific research that has been accomplished in South Africa s national parks during the twentieth century Providing a fascinating and thorough historical narrative based on an extensive range of sources this text details the evolution of traditional natural history pursuits to modern conservation science in South Africa covering all research areas of conservation biology and all the national parks around the country It reveals the interaction between the international context government learning institutions and the public that has shaped the present conservation arena A complex story that will interest and inform not only those involved in conservation science of South Africa but worldwide

Global Child Myriam Denov,Claudia Mitchell,Marjorie Rabiau,2023-01-13 Armed conflicts continue to wreak havoc on children and families around the world with profound effects In 2017 420 million children nearly one in five were living in conflict affected areas an increase in 30 million from the previous year The recent surge in war induced migration referred to as a global refugee crisis has made migration a highly politicized issue with refugee populations and host countries facing unique challenges We know from research related to asylum seeking families that it is vital to think about children and families in relation to what it means to stay together what it means for parents to be separated from their children and the kinds of everyday tensions that emerge in living in dangerous insecure and precarious circumstances In Global Child the authors draw on what they have learned through their collaborative undertakings and highlight the unique features of participatory arts based and socio ecological approaches to studying war affected children and families demonstrating the collective strength as well as the limitations and ethical implications of such research Building on work across the Global South and the Global North this book aims to deepen an understanding of their tri pillared approach and the potential of this methodology for contributing to improved practices in working with war affected children and their families Emerging

Trends in Chemical Sciences Ponnadurai Ramasami,Minu Gupta Bhowon,Sabina Jhaumeer Laulloo,Henri Li Kam

Wah,2017-10-10 Thirty carefully selected peer reviewed contributions from the International Conference on Pure and Applied Chemistry ICPAC 2016 are featured in this edited book of proceedings ICPAC 2016 a biennial meeting was held in Mauritius in July 2016 The chapters in this book reflect a wide range of fundamental and applied research in the chemical sciences and interdisciplinary subjects This is a unique collection of full research papers as well as reviews **Food Sovereignty and**

Urban Agriculture Anne Siebert,2022-07-08 This book analyses the interplay of urban agriculture and food sovereignty through the innovative lens of the critical urban food perspective It focuses on the mobilisation of urban food producers as a powerful response to highly exclusionary dynamics in the agri food system including insufficient food access and disastrous

land dispossessions This volume particularly aims to fill the gap in the current literature by engaging with food sovereignty discourses and movements in urban areas Related activism of urban food producers in the Global South remains underrepresented in practice and in literature Therefore this book engages with the lived realities of an urban agriculture initiative in George South Africa Building on theoretical notions of the right to the city and everyday forms of resistance the book illuminates how deprived food producers expose inequalities and propose alternatives The findings of in depth empirical research reveal that dwellers perceive farming as a mean to overcome historical segregation high food prices and unhealthy nutrition Hence they breathe life into food sovereignty in practice and suggest further alliances beyond the city The book will be of interest to scholars and students of alternative food politics agrarian transformation and food movements as well as rural urban intersections

Social Justice and Education in the 21st Century Willie Pearson Jr., Vijay Reddy, 2021-04-10 The world is not an equal place There are high and low income countries and high and low income households For each group there are differential educational opportunities leading to differential educational outcomes and differential labor market opportunities This pattern often reproduces the privileges and inequalities of groups in a society This book explores this differentiation in education from a social justice lens Comparing the United States and South Africa this book analyzes each country s developmental thinking on education from human capital and human rights approaches in both primary and higher education The enclosed contributions draw from different disciplines including legal studies sociology psychology computer science and public policy

Capacity Building for Maritime Security Christian Bueger, Timothy Edmunds, Robert McCabe, 2020-10-09 This book studies recent attempts to restructure maritime security sectors through capacity building It innovates both theoretically and empirically It proposes a new framework for understanding maritime capacity building drawing on work in peacebuilding and security sector reform The framework is then applied across empirical case studies from the Western Indian Ocean WIO region written by scholars from the Global South The WIO region is a paradigmatic case to study maritime security and capacity building in action Countries in the region face the full gamut of maritime security challenges while their indigenous capacities to deal with these are often weak In consequence the region functions as an engine of innovation for maritime capacity building more widely The lessons and best practices from the region have importance consequences for addressing maritime security across the globe

Adopting the Song of Phrase: An Mental Symphony within **Nmmu Open Day 2016**

In some sort of consumed by displays and the ceaseless chatter of fast conversation, the melodic elegance and emotional symphony created by the prepared word frequently fade in to the background, eclipsed by the persistent noise and disruptions that permeate our lives. Nevertheless, set within the pages of **Nmmu Open Day 2016** a marvelous fictional treasure filled with natural thoughts, lies an immersive symphony waiting to be embraced. Crafted by a masterful musician of language, that interesting masterpiece conducts visitors on a psychological trip, skillfully unraveling the concealed songs and profound affect resonating within each cautiously constructed phrase. Within the depths of the moving analysis, we can examine the book is main harmonies, analyze its enthralling writing type, and submit ourselves to the profound resonance that echoes in the depths of readers souls.
