Achieving Nelson Mandela University? Sibongile Muthwa, Denver A. Webb, 2024-08-20 South Africa's higher education sector is rooted in the country's divided past A significant State driven restructuring from around 1997 to 2005 resulted in what is largely the current configuration of public universities But just over two decades later for a variety of reasons the higher education sector in South Africa appears beset with numerous challenges Nelson Mandela University is one of the public universities that emerged from the restructuring process The university is in an ongoing state of evolution of becoming It developed out of the amalgamation of the University of Port Elizabeth Port Elizabeth Technikon and incorporation of the Port Elizabeth campus of Vista University as Nelson Mandela Metropolitan University in 2005 In 2017 it was renamed Nelson Mandela University after the world renowned statesman rather than the metropolitan area in which the university is primarily located The renaming was conceptualised as more than a marketing opportunity to rebrand the university but as an opportunity to reorientate the university to reposition Nelson Mandela University as an engaged and socially embedded university in the service of society striving to be the academic expression of the values and ethos of its iconic namesake Endeavouring to be something greater and different from the norm imbues its strategy public statements and practices The determination to achieve Mandela University serves or is intended to serve as both an organising principle and a lodestar A cross section of writers from different backgrounds situates Nelson Mandela University within the contemporary historical moment from which it emerged and examines its subsequent

evolution While Nelson Mandela University has performed the usual work expected of any university it has also sought to turn the university outwards to achieve a higher purpose framing itself as a values based university on a journey to become something else In Achieving Nelson Mandela University the university attempts to give an account of itself The book is an intellectual and scholarly reflection on where the university has come from and where it is seeking to go Crystallizing Ideas - The Role of Chemistry Ponnadurai Ramasami, Minu Gupta Bhowon, Sabina Jhaumeer Laulloo, Henri Li Kam Wah, 2016-06-29 Twenty three carefully selected peer reviewed contributions from the International Conference on Pure and Applied Chemistry ICPAC 2014 are featured in this edited book of proceedings ICPAC 2014 a biennial meeting was held in Mauritius in June 2014 The theme of the conference was Crystallizing Ideas The Role of Chemistry and it matched the declaration of the year 2014 as the International Year of Crystallography ICPAC 2014 was attended by 150 participants from 30 countries The chapters in this book reflect a wide range of fundamental and applied research in chemistry and interdisciplinary subjects Crystallizing Ideas The Role of Chemistry is written for graduates postgraduates researchers in industry and academia who have an interest in the fields ranging from fundamental to applied chemistry
