No Lady And Her Tr English Edition:

Victorian Women and the Economies of Travel, Translation and Culture, 1830-1870 Judith Johnston, 2016-02-24

Both travel and translation involve a type of journey one with literal and metaphorical dimensions Judith Johnston brings together these two richly resonant modes of getting from here to there as she explores their impact on culture with respect to the work of Victorian women Using the metaphor of the published journey whether it involves actual travel or translation Johnston focusses particularly on the relationships of various British women with continental Europe At the same time she sheds light on the possibility of appropriation and British imperial enhancement that such contact produces Johnston s book is in part devoted to case studies of women such as Sarah Austin Mary Busk Anna Jameson Charlotte Guest Jane Sinnett and Mary Howitt who are representative of women travellers translators and journalists during a period when women became increasingly robust participants in the publishing industry Whether they wrote about their own travels or translated the foreign language texts of other writers Johnston shows women were establishing themselves as actors in the broad business of culture In widening our understanding of the ways in which gender and modernity functioned in the early decades of the Victorian age Johnston s book makes a strong case for a greater appreciation of the contributions nineteenth century women made to what is termed the knowledge empire

Literary Gazette and Journal of Belles Lettres, Arts, Sciences, Etc William Jerdan, William Ring Workman, Frederick Arnold, John Morley, Charles Wycliffe Goodwin, 1838 The Literary Gazette and Journal of the Belles Lettres, Arts, Sciences, &c, 1838 **Reading Early Modern Women** Helen Ostovich, Elizabeth

Sauer, 2004-08-02 Much has been written about women of the English Renaissance but few examples of women's writing from that era have been readily available until now. This remarkable anthology assembles for the first time 144 primary texts and documents written by women between 1550 and 1700 and reveals an unprecedented view of the intellectual and literary lives of women in early modern England. The writings range from poetry to philosophical treatises addressing a wide array of subjects including law, gender, education, motherhood, medicine, religion, life, writing, and the arts. Each selection is paired with a beautifully reproduced facsimile of the text's original source manuscript, allowing a glimpse into the literary past that will lead the reader to truly appreciate the care and craft with which these women writers prepared their texts. This essential anthology is a captivating guide to the legacy of early modern women's literature and its authors that must not be overlooked.
