General Pedagogy Martha M. A. Zama, Margaret Nalova Endeley, 2023-02-24 General Pedagogy A Guide to Effective Teaching demystifies the scientific art of teaching by providing facts principles and concrete examples in real life situations such that neither the novice teacher who peruses it will stutter in front of students on the first day of school nor will the experienced teacher write and execute the same old lesson plans on that day The best teachers are those who show you where to look but don t tell you what to see is a popular quote attributed to Alexandra K Trenfor which aptly summarises the kind of teachers this book intends to produce when used as a teacher training resource Real teachers facilitate learning they do not simply tell learners the answers to their questions and concerns Accordingly the authors take the readers through well researched themes in the academic discipline of teaching wherein they present analyse and discuss pertinent issues Although they provide useful suggestions for teaching success the authors encourage teachers to interpret facts ideas and suggestions presented against the sociocultural contexts of their practice The materials are presented creatively while adding a personal touch intended to facilitate effective and efficient learning For coherence and better comprehension the book has been carefully crafted in eighteen chapters lodged in six parts The first part introduces the reader to the concepts of teaching and teaching effectiveness The theoretical underpinnings of these concepts are brought out in the second part which paves the way for the third part that describes generic teaching approaches strategies and methods Part four and five comprise essential teaching skills and teaching tools for the 21st century while part six wraps up with the transition from teacher training laboratories to classrooms in the real world The last two chapters intentionally prepare the teacher to overcome challenges of professional work in contemporary African classrooms

Cultural Interactions of English-Medium Instruction at Vietnamese Universities Thi Quynh Huong Luu, Helena Hing Wa Sit, Shen Chen, 2022-12-16 This book presents a case study of English Medium Instruction EMI implemented by universities in Vietnam making valuable theoretical empirical and methodological contributions to the research in EMI which is currently a popular theme in the field of Higher Education The importance of internationalization of higher education has been widely recognized by many countries all over the world The spread of English as an international language has resulted in its crucial role in teaching and learning any disciplines Globally higher education in many non English speaking countries has witnessed rapid expansion of EMI which was initiated in Europe then to Asia and other continents which are featured with Cultural Circles spread in the world Although there are many publications with the same theme available today this monograph is unique because it is the first time to examine EMI classroom interaction from the cultural perspective

specifically rather than from linguistic or pedagogical perspectives It is a pioneering attempt to discuss in depth about cultural issues relating to EMI namely 1 the social cultural context of EMI classes in higher education 2 the cultural backgrounds of EMI teachers and learners and 3 culture interactions between teachers and learners in EMI classrooms In addition both quantitative and qualitative methods are employed to collect data from teachers and learners Finally a context based model of EMI is proposed based on findings of this research As a country within the Confucius Heritage Cultural Circle Vietnam has been selected for this study because few studies to date are carried out in how EMI is culturally integrated to teaching and learning in the Vietnamese universities This book is a joint effort by international academics prepared for established scholars researchers educators and research higher degree students who are interested in higher education second and foreign language education and EMI teacher training *South African Pressclips* ,1989 The New Yorker Harold Wallace Ross,William Shawn,Tina Brown,David Remnick,Katharine Sergeant Angell White,Rea Irvin,Roger Angell,1978 The Flipped Learning Déborah Martín R. ,Antonio J.
