N. Shearman, 2019-06-07 Originally published in 1915 The Natural Theology of Evolution looks at the concept of natural theology examining the argument for the existence of God based on reason and ordinary experiences of nature The book looks at natural theology in light of Darwin s theory of evolution and how this important discovery affected belief in intelligent design The book argues that the discovery of evolution far from diminishing the existence of God provides stronger proof for an intelligently designed earth and therefore the existence of God This book provides a unique and interesting take on the debates surrounding evolution in the late 19th and early 20th century It will be of interest to philosophers historians of religion and natural historians alike *History of the Consulate and the Empire of France Under Napoleon* Adolphe Thiers, 1865 *Collected Works of C.G. interviews collected here she speaks forthrightly about herself her independence and her writing Although born in Belgium Sarton is quintessentially American in her choice of solitude on which her personal well being and writing depend She is a modernist who has defined herself as an artist with the occasionally painful recognition that all else must finally be subordinated to her writing Her journal After the Stroke makes clear that when she cannot write she stands on the edge of the abyss of nonbeing These interviews offer Sarton s readers the model of a woman who has supported herself as a writer of achievement who has made her way without the comforts of academic tenure grants or bestseller listings
