Ford,2021-11-21 The Southern Appalachian Region is the largest American problem area an area whose participation in the economic growth of the nation has not been sufficient to relieve the chronic poverty of its people The existence of the problem was recognized a generation ago but in the past decade the resistance of such areas to economic advance has acquired a more urgent significance in American thought In 1958 a group of scholars undertook to make a new survey of the Southern Appalachian Region Aided by grants from the Ford Foundation ultimately amounting to 250 000 they set out to analyze the direction and extent of the changes which had taken place since the last survey in1935 to define the problem in terms of the present situation and if possible to arrive at recommendations for action which might enable the leaders of the Region and the nation to attack the problem with practical measures In this volume are presented their comprehensive reports on the Region s population its economy its institutions and its culture The problems defined by this survey are a challenge to the whole nation for the consequences of success or failure in solving them will not be limited to the Southern Appalachian Region

Prophetic Figures of the Old Testament Nyamayabo Mashavakure, 2014-12-22 There is nothing particularly new or unique about the subject matter of Prophetic Figures of the Old Testament In fact greater authorities have covered it better many times before and this endeavour is hugely reliant upon and indebted to these great minds for this current work The hope is that readers can enjoy more of what they have already had from many different quarters presented through a different hand It is also the hope that beginning learners of divinity or biblical studies can find this book greatly enjoyable and inspiring In the main the prophetic figures represented in the wording of the book title certainly refer to persons called or identifiable as prophets in the Bible But this is also extended to include some objects occurrences and places that prophets may have encountered and even made use of in the performance of their prophetic duties The interplay of these and the prophet is generally taken to signify the comprehensiveness or completeness of prophecy in this book The reader is invited to interrogate the relationship of the prophet and this environment in order to enjoy more fully the religious historical political intellectual and inspirational aspects one goes through in respect of the issues selected and commented on The reader is encouraged to think beyond what one reads Any statement or comment is not meant to be some kind of definitive prescription but is meant to arouse thought and more thought More important readers should always be in constant contact with the origin of the materials spoken about in this book that is the Bible There is obviously no way in which selective consideration of items picked on a rather random personal subjective basis can replace the source from which these are originally taken Reading of Prophetic Figures of the Old Testament should therefore always depend on knowledge of or familiarity with the background information provided in the Bible
