CliffsNotes TASC Cram Plan provides calendarized test prep for the TASC which is a high school graduation equivalency test similar to the GED No Easy Answers Allan Franklin, 2005-02-27 In No Easy Answers Allan Franklin offers an accurate picture of science to both a general reader and to scholars in the humanities and social sciences who may not have any background in physics Through the examination of nontechnical case studies he illustrates the various roles that experiment plays in science He uses examples of unquestioned success such as the discoveries of the electron and of three types of neutrino as well as studies that were dead ends wrong turns or just plain mistakes such as the fifth force a proposed modification of Newton's law of gravity Franklin argues that science is a reasonable enterprise that provides us with knowledge of the natural world based on valid experimental evidence and reasoned and critical discussion and he makes clear that it behooves all of us to understand how it works **United States Armed Forces Institute Catalog** United States Armed Forces Institute, 1963
