The Polaris Protocol Brad Taylor, 2015-01-06 Taskforce operators Pike Logan and Jennifer Cahill are used to putting their lives at risk but this time it's Jennifer's brother who is in danger. As an investigative reporter working on the Mexican drug cartels Jack Cahill has unknowingly got caught between two rival groups. His desperate call to his sister is his last before he's kidnapped. In their efforts to rescue Jack Pike and Jennifer uncover a plot much more insidious than illegal drug trafficking.

Hiking Pack Guide Ava Thompson, 2025-02-19 Hiking Pack Guide is your essential companion for safe and rewarding hiking adventures emphasizing the critical role of terrain-specific gear. This hiking guide dives into how selecting the right outdoor gear from hiking footwear to navigation tools directly impacts your safety and enjoyment across diverse landscapes. Did you know that up to 40% of hiking injuries are related to inadequate footwear? The book addresses this by providing detailed guidance on choosing the best gear for mountainous, desert, forest, and coastal environments. The book progresses logically beginning with terrain classifications before delving into specific gear categories such as packs, clothing, and emergency supplies. Each chapter explores how terrain characteristics influence gear selection, ensuring you're prepared for any trail. Hiking Pack Guide emphasizes that a one-size-fits-all approach to hiking equipment is both inefficient and potentially dangerous, advocating instead for informed decisions tailored to your specific hiking destination and the challenges it presents.

The GPS Manual Steve Dye, Frank Baylin, 1997 At First Sight Sharon Michalove, 2021-10-22 Oxford, England 1993 An awkward American grad student runs into a gorgeous English undergrad with her bicycle. She's embarrassed. He's intrigued. They go their separate ways but neither forgets. Chicago, Illinois 2013 When Cress Taylor starts receiving anonymous threats, the successful novelist feels her world crashing down. Max Grant turns up at a book signing and wants to renew their fleeting acquaintance. Is the timing coincidental or suspicious? Should she fall into his arms or run like hell? Then the plagiarism accusations start. A former spy now working for a global security company, Max Grant has always steered clear of relationships until now. When he sees Cress in a TV interview, his curiosity ignites. Will the spark he felt twenty years ago burst into flame? Cress is a magnet he can't resist. As threats escalate to physical danger, Max feels driven to protect Cress. They must learn to work together if they want to stop her nemesis and find their happy ending. **Marine Corps Combat**

Gunn,2021-09-03 Imagined Geographies is a pioneering work in the study of history and geography of the pre 1800 world In this book Gunn argues that different regions astride the maritime silk roads were not only interconnected but can also be construed as imagined geographies Taking a grand civilizational perspective five such geographic imaginaries are examined across respective chapters namely Indian Arabic Chinese Japanese and European including an imagined Great South Land Drawing upon an array of marine and other archaeological examples the author offers compelling evidence of the intertwining of political cultural and economic regions across the sea silk roads from ancient times until the seventeenth century Through a thorough analysis of these five geographic imaginaries the author sets aside purely national history and looks at the maritime realm from a broader spatial perspective He challenges the Eurocentric concept of center and periphery and establishes a revisionist view on a decentered world regional history This book will definitely interest history lovers from all around the world who wants to know more about how their forebears

viewed their respective region and how their region fits into world history with local uniqueness Gunn takes large themes and makes them understandable He is not afraid to make the grand statement and to look at the sweep of history all in one arc I admire that greatly this is not history for the faint of heart But it is history well done and history that can show the forest from the trees Eric Tagliacozzo John Stambaugh Professor of History Cornell University This is one of the most ambitious and insightful books that I have read on pre Modern maritime Asia The author offers fascinating perspectives on how this vast region was imagined charted and experienced over many centuries That requires mastery of an immense range of scholarship and primary sources His aim is to knit this watery world together into a conceptual whole This mission is accomplished with style and discipline Andrew R Wilson John A van Beuren Chair of Asia Pacific Studies U S Naval War College

The Columbus Metropolitan Freeway Management System (CMFMS) Effectiveness Study Benjamin André Coifman,2006 A Freeway Management System FMS employs various tools to manage a freeway to increase throughput and reduce delay without additional lanes The FMS acquires data from the roadway and process these data to identify and respond to problems If some aspects of the data are unreliable then the response decisions will likely be faulty This study evaluates the performance of the first phase of the Columbus Metropolitan Freeway Management System CMFMS along roughly 14 miles 22.5 km of I 70 and I 71 The system became operational at the end of 2001 The tools developed and the evaluation are intended to both provide a better understanding of the operation of the facility and to help guide future investments in the CMFMS and other FMSs The initial objective of this study was to evaluate the performance of the CMFMS In the course of the evaluation this effort developed calibration tools and performance measures that should also prove useful for ongoing operations The study specifically develops a suite of performance monitoring tools both to assess the performance of instrumented freeways and the reliability of the surveillance system It also provides a comprehensive overview of the given traffic monitoring system for practitioners allowing them to optimize the system In the course of this work we integrated information from many sources to meet multiple objectives for system management and monitoring Although presented in the context of the Columbus system the tools should be generalizable to most freeway surveillance systems *Basic*
