Njal's Saga ,1997-06-12 Proclaimed as one of the finest Icelandic sagas this text was written in about 1280 and refers to events a couple of centuries earlier It is full of the details of everyday life as well as the social structures of the society in which they take place Njal's Saga ,1960 An Icelandic family saga probably from the 13th century in a modern translation

The Story of Burnt Njal: From the Icelandic of the Njals Saga Anonymous, The men who colonized Iceland towards the end of the ninth century of the Christian ra were of no savage or servile race They fled from the overbearing power of the king from that new and strange doctrine of government put forth by Harold Fairhair 860 933 which made them the king s men at all times instead of his only at certain times for special service which laid scatts and taxes on their lands which interfered with vested rights and world old laws and allowed the monarch to meddle and make with the freemen s allodial holdings As we look at it now and from another point of view we see that what to them was unbearable tyranny was really a step in the great march of civilization and progress and that the centralization and consolidation of the royal authority according to Charlemagne s system was in time to be a blessing to the kingdoms of the north But to the freeman it was a curse He fought against it as long as he could worsted over and over again he renewed the struggle and at last when the isolated efforts which were the key stone of his edifice of liberty were fruitless he sullenly withdrew from the field and left the land of his fathers where as he thought no free born man could now care to live Now it is that we hear of him in Iceland where Ingolf was the first settler in the year 874 and was soon followed by many of his countrymen Now too we hear of him in all lands Now France now Italy now Spain feel the fury of his wrath and the weight of his arm After a time but not until nearly a century has passed he spreads his wings for a wider flight and takes service under the great emperor at Byzantium or Micklegarth the great city the town of towns and fights his foes from whatever quarter they come The Moslem in Sicily and Asia the Bulgarians and Slavonians on the shores of the Black Sea and in Greece well know the temper of the Northern

steel which has forced many of their chosen champions to bite the dust Wherever he goes the Northman leaves his mark and to this day the lion at the entrance to the arsenal at Venice is scored with runes which tell of his triumph But of all countries what were called the Western Lands were his favourite haunt England where the Saxons were losing their old dash and daring and settling down into a sluggish sensual race Ireland the flower of Celtic lands in which a system of great age and undoubted civilization was then fast falling to pieces afforded a tempting battlefield in the everlasting feuds between chief and chief Scotland where the power of the Picts was waning while that of the Scots had not taken firm hold on the country and most of all the islands in the Scottish Main Orkney Shetland and the outlying Faroe Isles all these were his chosen abode In those islands he took deep root established himself on the old system shared in the quarrels of the chiefs and princes of the Mainland now helped Pict and now Scot roved the seas and made all ships prizes and kept alive his old grudge against Harold Fairhair and the new system by a long series of piratical incursions on the Norway coast So worrying did these Viking cruises at last become that Harold who meantime had steadily pursued his policy at home and forced all men to bow to his sway or leave the land resolved to crush the wasps that stung him summer after summer in their own nest First of all he sent Kettle flatnose a mighty chief to subdue the foe but though Kettle waged successful war he kept what he won for himself It was the old story of setting a thief to catch a thief and Harold found that if he was to have his work done to his mind he must do it himself He called on his chiefs to follow him levied a mighty force and sailing suddenly with a fleet which must have seemed an armada in those days he fell upon the Vikings in Orkney and Shetland in the Hebrides and Western Isles in Man and Anglesey in the Lewes and Faroe wherever he could find them he followed them up with fire and sword Not once but twice he crossed the sea after them and tore them out so thoroughly root and branch that we hear no more of these lands as a lair of Vikings but as the abode of Norse Jarls and their udallers freeholders who look upon the new state of things at home as right and just and acknowledge the authority of Harold and his successors by an allegiance more or less dutiful at different times but which was never afterwards entirely thrown off It was just then just when the unflinching will of Harold had taught this stern lesson to his old foes and arising in most part out of that lesson that the great rush of settlers to Iceland took place We have already seen that Ingolf and others had settled in Iceland from 874 downwards but it was not until nearly twenty years afterwards that the island began to be thickly peopled More than half of the names of the first colonists contained in the venerable Landn ma Book the Book of Lots the Doomsday of Iceland and far livelier reading than that of the Conqueror are those of Northmen who had been before settled in the British Isles Our own country then was the great stepping stone between Norway and Iceland and this one fact is enough to account for the close connection which the Icelanders ever afterwards kept up with their kinsmen who had remained behind in the islands of the west The Story of Burnt Njal, from the Icelandic of the Njals Saga ,1923
