No One Understands You and What to Do About It Heidi Grant Halvorson, 2015-03-24 Achieve authenticity Have you ever felt you're not getting through to the person you're talking to or not coming across the way you intend You're not alone That's the bad news But there is something we can do about it Heidi Grant Halvorson social psychologist and bestselling author explains why we're often misunderstood and how we can fix that Most of us assume that other people see us as we see ourselves and that they see us as we truly are But neither is true Our everyday interactions are colored by subtle biases that distort how others see us and also shape our perceptions of them You can learn to clarify the message you're sending once you understand the lenses that shape perception Trust Are you friend or foe Power How much influence do you have over me Ego Do you make me feel insecure Based on decades of research in psychology and social science Halvorson explains how these lenses affect our interactions and how to manage them Once you understand the science of perception you'll communicate more clearly send the messages you intend to send and improve your personal relationships You'll also become a fairer and more accurate judge of others Halvorson even offers an evidence-based action plan for repairing a damaged reputation This book is not about making a good impression although it will certainly help you do that It's about coming across as you intend It's about the authenticity we all strive for

Summary of Heidi Grant Halvorson's No One Understands You and What to Do About It Everest Media, 2022-05-23T22:59:00Z Please note This is a companion version not the original book Sample Book Insights 1 There are only weak correlations between how others see us and how we believe we are seen And while we don't always realize it we are very likely operating under two very flawed assumptions first that other people see us objectively as we are and second that other people see us as we see ourselves 2 You are difficult to read and you don't do enough to make yourself knowable Your emotions are not as obvious as you think and your face is not as expressive as you think it is 3 To be more judgeable you must make information about yourself available to others and it should provide evidence of the particular qualities you are trying to convey People who are more judgeable are psychologically better adjusted and they are happier 4 The second reason those core assumptions that you are seen objectively and that you see yourself the way you see yourself are flawed is that the information other people get from you and about you is always given meaning through interpretation
