Creating Literacy Communities as Pathways to Student Success Jessica Singer Early, Christina Saidy, 2018-10-04
Creating Literacy Communities as Pathways to Student Success offers a model for using literacy as a pathway for secondary students to explore fields from which they are often systematically excluded In particular this volume demonstrates how access for young Latina students to STEM related fields can be bolstered through engagement with mentors in writing and reading programs Written for pre and in service teachers as well as scholars across disciplines this book aims to re conceptualize the ways in which writing can best serve ethnically and linguistically diverse students especially girls In the Path of Destruction Richard Waitt, 2020-10-14 A napping volcano blinked awake in March 1980 Two months later when that mountain roared Jim Scymanky was about twelve miles northwest logging a north slope above Hoffstadt Creek Rocks zinged through the woods bouncing off trees then the tops of trees snapped off Suddenly I could see nothing it got hot right away then scorching hot and impossible to breathe The air had no oxygen like being trapped underwater I was being cremated the pain unbearable Steve Malone at the University of Washington Seismology Laboratory was inconsolable We d failed For two months we d counted and located thousands of earthquakes looked for changes to anticipate an eruption Then it just happened It killed many people It killed David Johnston We could hardly work Author Richard Waitt was part of a U S Geological Survey team doing volcano research in the Cascades and was one of the first to arrive following the mountain s early rumblings His journey collecting eyewitness accounts began with a conversation in a bar the third week after Mount St Helens erupted The couple he met barely outraced a searing ash cloud and Waitt realized their experiences could inform geologic studies He eventually conducted hundreds of interviews sometimes two and three decades later often making multiple visits to gather additional details correct errors and resolve discrepancies A meticulous scientist with intimate knowledge of Mount St Helens Waitt delivers a detailed and accurate chronicle of events He tapped numerous primary sources interviews legal depositions personal diaries geologists field notes radio logs and police records Newspaper stories and even sun shadows on photographs revealed additional intricacies In the Path of Destruction s eruption story unfolds through unforgettable riveting narratives the heart of a masterful chronology that also delivers engrossing science history and journalism **Putting Ourselves Back in the Equation** George Musser, 2023-11-09 Distant galaxies dark matter black holes elusive incomprehensible and inhospitable these are the building blocks of modern physics But where do we fit in this picture A delightful account of one of the deepest and most fascinating explorations going on today CARLO ROVELLI AUTHOR OF WHITE HOLES For centuries we have separated mind from matter While physicists have pursued a theory of everything with single minded purpose the matter of the mind of human consciousness has been conveniently sidestepped and ignored consigned to priests philosophers and poets With the ambition of Stephen Hawking Carlo Rovelli and Brian Cox Putting Ourselves Back in the Equation sets out a bold new vision for theoretical physics unrestricted by sleek equations and

neat formulations Combining cutting edge neuroscience with the latest in quantum mechanics acclaimed writer Musser offers a new interpretation of human consciousness From bizarre cognitive phenomena like lucid dreaming and self taught synaesthesia to the latest technological developments in AI Musser asks what can physics teach us about what it means to be human The renowned science writer George Musser has taken on one of our time s greatest issues AI how it works and what makes it so powerful This masterfully written book shows a surprising connection with theoretical physics MAX TEGMARK AUTHOR OF LIFE 3 0 Musser is to be applauded for tackling both consciousness and the quantum realm He joins a distinguished list of thinkers Musser s book is readable and enthusiastic packed with first person anecdotes TLS In this captivating book George Musser takes us on a fascinating tour of the modern surprising connections scientists discover between the cosmos and our inner world of consciousness MARIO LIVIO AUTHOR OF THE GOLDEN RATIO

Six Stages on the Spiritual Path Ruth Whitney,2021-05-21 In Six Stages on the Spiritual Path we learn about spirituality and its stages as well as how spirituality helps to reduce our suffering and create more love Writings from ancient to contemporary mystics across the world provide us with practical and spiritual wisdom that will make our lives happier and more loving In the first stage on the mystic way children experience awe and wonder but they do not realize that this is a spiritual experience While all indigenous people recognize awe as a mystical experience only some adults and most artists do When parents and religious leaders teach children about God they cause their spiritual growth to flourish or to become stunted at an elementary school level Awakening is an experience of the Divine that helps us realize that the Sacred Spirit is within us and loves us Awakening produces love for our neighbors and ourselves Then love nurtures more awakenings Illumination and union are deeper mystical experiences that the Holy One is not only within all of us and all of creation but also that we are within the ONE Illumination creates more love for all people and all the universe

Pathways to the Origin and Evolution of Meanings in the Universe Alexei A. Sharov,George E. Mikhailovsky,2024-02-28 Pathways to the Origin and Evolution of Meanings in the Universe The book explains why meaning is a part of the universe populated by life and how organisms generate meanings and then use them for creative transformation of the environment and themselves This book focuses on interdisciplinary research at the intersection of biology semiotics philosophy ethology information theory and the theory of evolution Such a broad approach provides a rich context for the study of organisms and other semiotic agents in their environments This methodology can be applied to robotics and artificial intelligence for developing robust adaptable learning devices In this book leading interdisciplinary scholars reveal their vision on how to integrate natural sciences with semiotics a theory of meaning making and signification Developments in biology indicate that the capacity to create and understand signs is not limited to humans or vertebrate animals but exists in all living organisms the fact that inspired the integration of biology and semiotics into biosemiotics The authors discuss the nature of semiotic agents organisms and other autonomous goal directed units meaning signs information memory evolution and consciousness Also discussed are issues

including the origin of life potential meaning and its actualization top down causality in physics and biology capacity of organisms to encode their functions the strategy of organisms to combine homeostasis with direct adaptation to new life cycle phases or new environments multi level memory systems increase of freedom via enabling constraints creative modeling in evolution and learning communication in animals and humans the origin and function of language and the distribution and transfer of life in space This is the first book on biosemiotics in its global conceptual and spatial scope Biosemiotics is presented using the language of natural sciences which supports the scientific grounding of semiotic terms Finally the cosmic dimension of life and meaning making leads to a reconsideration of ethical principles and ecological mentality here on earth and in space exploration Audience Theoretical biologists ethologists astrobiologists ecologists evolutionary biologists philosophers phenomenologists semioticians biosemioticians molecular biologists linguists system scientists and engineers

Berk, 1997-07-23 Berk concludes that our understanding of historical political economy must take markets technologies and organizational forms as the contingent outcomes of such constitutional politics rather than as premeditated contexts for state and economic development **Multi-Level Reconciliation and Peacebuilding** Kevin P. Clements, SungYong

Lee, 2020-12-06 This edited volume examines the group dynamics of social reconciliation in conflict affected societies by adopting ideas developed in social psychology and the everyday peace discourse in peace and conflict studies The book revisits the intra and inter group dynamics of social reconciliation in conflict affected societies which have been largely marginalised in mainstream peacebuilding debates By applying social psychological perspectives and the discourse of everyday peace the chapters explore the everyday experience of community actors engaged in social and political reconciliation The first part of the volume introduces conceptual and theoretical studies that focus on the pros and cons of state level reconciliation and their outcomes while presenting theoretical insights into dialogical processes upon which reconciliation studies can develop further The second part presents a series of empirical case studies from around the world which examine the process of social reconciliation at community levels through the lens of social psychology and discourse analysis This book will be of much interest to students of peacebuilding conflict resolution social psychology discourse analysis and international relations in general **Chemical Achievers** Mary Ellen Bowden, 1997 This book was designed to help teachers supplement science curricula with human stories of discovery in the chemical sciences Chemical Achievers presents the lives and work of two types of achievers First are the historical greats those chemical scientists most often referred to in introductory courses Second are those scientists who made contributions in areas of the chemical sciences that are of special relevance to modern life and the career choices students will make The human faces summarized in this book range from Robert Boyle to Glenn Seaborg and Stephanie Kwolek In this lively and comprehensive collection of photographs and biographies Bowden illuminates how much the chemical sciences owe to the individual achiever Over 150 images can be easily reproduced as overhead transparencies or other visual teaching aids
