New step-by-step assessment sidebars that make it easy to locate and refer to assessment procedures. Modern guidelines for usage of current technology to test and monitor physical activity. Demonstrations of many of the assessments and exercises provided in 73 video clips. Structured around the five physical fitness components: cardiorespiratory capacity, muscular fitness, body composition, flexibility, and balance. The text begins with an overview of physical activity, health, and chronic disease, including discussion of preliminary health screenings and risk classification.
