The Smart Woman's Guide to Property Law Carla Spivack,2020-04-08 The income gap between women and men has gotten lots of attention in the last few decades today women earn seventy nine cents for every dollar men earn But fewer people are aware of the much more serious wealth gap for every dollar in wealth men own women own thirty two cents Thirty two cents Wealth matters Wealth is what gives us a financial safety net when we lose our jobs break up a relationship or divorce we or our dependents become sick or when we are hit by some other financial crisis It enables us to build security to give our children a future and to retire It is passed from generation to generation allowing wealthy families to stay wealthy over time Wealth can generate income whether through investments in the financial markets or real estate or through funding a startup business and more Significant wealth even allows us to influence our world by allowing us to contribute to political campaigns and policy initiatives For these reasons wealth is a better indicator of financial status than income it reveals who is secure and influential and who is not By treating women and men equally without recognizing the gross social and economic advantages that differentiate us the law perpetuates the wealth gap Here Carla Spivack takes readers through a tour of a woman s life stages and the property laws that may apply and hinder their financial independence From living together to marriage from divorce to inheritance the circumstances invite unfair treatment that leaves women out in the cold Understanding how to protect your assets fight for what is fair and increase financial security is increasingly important as the wage gap continues to flourish Readers will learn about the laws that work against them and how to protect themselves regardless of their relationship status For all women of all ages here is your guide to keeping your wealth not matter how your relationship fares

This collection focuses on lived religion and the devotional practices found in the domestic settings of late medieval and early modern Europe. More particularly, it investigates the degree to which the experience of personal or familial religious practice in the domestic realm intersected with the more public expression of faith in liturgical or communal settings. Its broad geographical range, spanning northern, southern, central, and eastern Europe, includes practices related to Christianity, Judaism, and Islam. This Special Issue will be of interest to historians, art historians, medievalists, early modernists, historians of religion, anthropologists, and theologians, as well as those interested in the history of material religious culture. It also offers important insights into research areas such as gender studies, histories of the emotions, and histories of the senses. *Guide to Microforms in Print* K. G. Saur Books, K. G. Households and Financialization in Europe Marek Mikuš, Petra Rodik, 2021-06-10. *Households and Financialization in Europe* develops a processual, relational, and critical transdisciplinary approach to household financialization in Europe, utilizing a range of national and local case studies. It does so by drawing on debates in Marxist, feminist, and radical IPE, anthropology, and other fields. The book explores the household as simultaneously a micro-level social institution specializing in social reproduction, distribution, and other activities; a building block of larger economic and social structures; and an object of multiple systems of power and knowledge. Putting this conceptualization to use in original research, the authors identify geographically and historically situated ways in which financialization transforms households and their relationships with the wider economy and society. The book traces these transformations in case studies of variegated financialization in Eastern and Southern European semi-peripheries, where households have faced particularly severe financial issues since the global financial crisis, such as over-indebtedness and asset devaluation. Key themes recurring throughout the book include the key role of housing in household financialization, the co-constitutive relationship between financialization and social and spatial inequalities, specific patterns in the relations of financial actors and households in semi-peripheries, and the implications of semi-peripheral forms of real and financial accumulation for household financialization. With its transdisciplinary approach, this book will be of great interest to students and scholars of finance, financialization, household economics, international and global political economy, uneven development, economic anthropology, and economic sociology. Kilroy, 2015-09-28. Gerard Kilroy here draws on newly discovered manuscript sources to reveal Campion as a charismatic and affectionate scholar who was finding fulfilment as priest and teacher in Prague when he was summoned to lead the first Jesuit mission to England. The book offers fresh insights into the dramatic search for Campion, the populist nature of the disputations in the Tower, and the legal issues raised by his torture. It was the monarchical republic itself that made him the

beloved champion of the English Catholic community Edmund Campion presents the most detailed and comprehensive picture to date of an historical figure whose loyalty and courage in the trial and on the scaffold swiftly became legendary across Europe
