God Visible Brian E. Daley,2018-01-12 God Visible Patristic Christology Reconsidered considers the early development and reception of what is today the most widely professed Christian conception of Christ The development of this doctrine admits of wide variations in expression understanding and interpretation that are as striking in authors of the first millennium as they are among modern writers The seven early ecumenical councils and their dogmatic formulations were crucial facilitators in defining the shape of this study Focusing primarily on the declaration of the Council of Chalcedon in AD 451 Brian E Daley argues that previous assessments that Christ was one Person in two natures the Divine of the same substance as the Father and the human of the same substance as us can sometimes be excessively narrow even distorting our understanding of Christ s person Daley urges us to look beyond the Chalcedonian formula alone and to consider what some major Church Fathers from Irenaeus to John Damascene say about the person of Christ Elements of Divine Truth; a Series of Lectures on Christian Theology ...
