European Yearbook of International Economic Law 2015 Christoph Herrmann, Markus Krajewski, Jörg Philipp Terhechte, 2015-07-04 This sixth volume 2015 of the European Yearbook of International Economic Law puts a particular emphasis on non tariff barriers NTBs to trade and the world trade order With the steady reduction of tariff rates since the GATT 47 came into force focus in recent years has been on the vast and complex landscape of non tariff barriers to trade States as well as scholars seemingly struggle with the multitude of measures pooled under this expression as there is no single acknowledged definition of the term and its relation to the term non tariff measures remains equally blurred Particularly in practice and on a multilateral level there appears to be some awkwardness when it comes to coping with NTBs since multilateral trade rules seem to be in conflict with national regulatory autonomy in the pursuit of policy objectives In part one this volume sheds light on the problems of non tariff barriers to trade that arise in various fields Part two focuses on regional integration with an emphasis on relations between East Asia and the European Union In this regard

the authors outline the trade and investment relations between the European Union and East Asia including Japan Korea and Singapore Part three offers an overview of recent institutional developments in WIPO ICSID WTO and WTO jurisprudence Part four includes book reviews of recent works in the field of international economic law and part five introduces a new section on publications in the field of international economic law that were released in 2013 and 2014 **Attitudes**

towards English in Europe Andrew Linn,Neil Bermel,Gibson Ferguson,2015-07-24 The status of English in Europe is changing and this book offers a series of studies of attitudes to English today Until recently English was often seen as an opportunity for Europeans to take part in the global market but increasingly English is viewed as a threat to the national languages of Europe and the idea that Europeans are equally at home in English is being challenged This book will appeal to anyone interested in global English **The Report: Kuwait 2014** Oxford Business Group,2014-09-03 Kuwait accounts for

approximately 6 1% of the world s proven oil reserves with hydrocarbons revenues comprising more than 65% of the country s GDP and 95% of total exports in 2013 Cautious budgetary decisions have resulted in large surpluses creating a solid base for public expenditure programmes such as the National Development Plan which is set to diversify the economy and boost employment Although tapering the US Federal Reserve s quantitative easing programme is likely to affect global liquidity and play a key part in growth prospects for 2014 15 the GCC economy is still forecast to expand by 4 1% for the year and in

Kuwait where a handful of new PPP plans and deals are slated for 2014 there are promising signs that the year could be a landmark for economic growth and expansion Review of the Fund's Capacity Development Strategy—Towards a More Flexible, Integrated, and Tailored Model International Monetary,Fund. Institute for Capacity

Development,2024-04-09 Capacity Development CD comprising technical assistance and training fosters economic development by improving human capital and institutions in member countries Every five years the IMF reviews its CD Strategy to ensure that CD continues to be of high quality and well focused on the needs of its members This review calls for CD to become more flexible integrated with the Fund s policy advice and lending and tailored to respond to member needs

The review benefitted from the recent independent evaluation of the Fund s CD and a wide range of inputs including internal and external consultations surveys of recipients and development partners staff background studies and recommendations of an External Advisory Group The vision for CD is informed by the Fund s comparative advantages and surveillance priorities The proposals of the current review center around the six key areas 1 strengthening CD prioritization and integration 2 enhancing the funding model 3 strengthening monitoring and evaluation 4 modernizing modalities 5 enhancing field presence and 5 strengthening human resources policies for staff working on CD *Reflexive Governance in EU Equality*

Law Emma Lantschner,2021-10-21 The Covid 19 pandemic has revealed how far we as a European society still are from the proclaimed Union of Equality The book explores how the promise of equal treatment can become a reality and compliance with the EU acquis relating to equality and non discrimination can be improved It studies enforcement and promotion

aspects of the two watershed directives of 2000 the Racial Equality Directive 2000 43 EC and the Employment Equality Directive 2000 78 EC through the lens of reflexive governance This governance approach is proposed as having great potential in enhancing the likelihood of sustainability or continuation of reforms in the current candidate countries and EU Member States through its emphasis on reflexive learning processes and the cooperation between EU institutions national authorities and civil society actors In order to deploy this potential there is however a need for more consistent and transparent monitoring both with regard to candidate countries as well as old and new Member States and a reconsideration of the understanding of monitoring as such It should be seen as helping to deconstruct own preference formations and as a possibility to learn from successes and failures in a cooperative and recursive process To work on these lacunae and improve learning and monitoring processes this book identifies indicators that are deduced from the comparative review of the implementation practice of the member states This book is thus a contribution to the existing literature in the fields of Europeanization governance and the right to equality and non discrimination
