Pidgin English Du Cameroun:

Sociolinguistic and Structural Aspects of Cameroon Creole English Aloysius Ngefac, 2016-08-17 Based on current data the book provides a detailed sociolinguistic and structural description of Cameroon Creole English with a special focus on aspects that are often used in creolistic literature as putative defining features of bona fide prototypical creoles It is the first comprehensive research monograph on the language that describes and situates its sociolinguistic and structural aspects within the context of current creolistic debate and answers the following unanswered questions How is the evolutionary trajectory of the language and which theory of pidgins and creoles genesis best accounts for its origin and development What is its current sociolinguistic status Is the language a pidgin or a creole What is the typological distance between the language and its main lexifier What is its relationship with the other West African contact languages and other creole languages In spite of the controversy that characterizes the field of creolistics regarding the defining characteristics of pidgins and creoles the book suggests for instance that if the different routes to creolization are recognized it will be much easier to come up with putative characteristics that define the developmental status of any contact language as is the case with Cameroon Creole English Corpus Linguistics and African Englishes Alexandra U. Esimaje, Ulrike Gut, Bassey E. Antia, 2019-02-15 Corpus linguistics has become one of the most widely used methodologies across the different linguistic subdisciplines especially the study of world wide varieties of English uses corpus based investigations as one of the chief methodologies This volume comprises descriptions of the many new corpus initiatives both within and outside Africa that aim to compile various corpora of African Englishes Moreover it contains cutting edge corpus based research on African Englishes and the use of corpora in pedagogic contexts within African institutions This volume thus serves both as a practical introduction to corpus compilation Part I of the book corpus based research Part II and the application of corpora in language teaching Part III and is intended both for those researchers not yet familiar with corpus linguistics and as a reference work for all international researchers investigating the linguistic properties of African Englishes Essays on Language, Communication and Literature in Africa Joyce T. Mathangwane, Akin Odebunmi, 2016-02-08 Essays on Language Communication and Literature in Africa explores language choice questions together with domain driven lingua communicative and literary resources situated within the discourses of law culture medicine visual art politics the media music and literature in Africa It identifies the distinctive African paraphernalia of these discourses and foregrounds their real world and mediated cultural and societal values and highlights the Western presence through the inclusion of aspects of Shakespearean perspectives which bear universal tidings and speak to the African gender tradition The chapters attention to verbal and visual artistic communicative mechanisms underlines such engagements as multilingualism policies socio political declension social dynamism and cultural interventions that characterise the African setting These realities are discussed in impressive detail authoritative scholastic depth and effective stylistic tones that reflect the authors familiarity with the facets

of African societies deducible from language communication and literature **Structural and Sociolinguistic**

Atindogbe, Emmanue Ebongue, 2019-11-16 With the demographic explosion of young people in major African cities we are witnessing the emergence of youth languages and new speech forms In search of well being these young people plagued by poverty social injustice unemployment and idleness invent linguistic codes that allow them to find themselves The linguistic and sociolinguistic description of these youth languages is the object of this volume The contributions inform on the statutes and functions of the youth languages of Africa their forms and structures their representations and envisage perspectives and prospective didactics *Manual of Romance Languages in Africa* Ursula Reutner, 2023-12-18 With more than two thousand languages spread over its territory multilingualism is a common reality in Africa The main official languages of most African countries are Indo European in many instances Romance As they were primarily brought to Africa in the era of colonization the areas discussed in this volume are thirty five states that were once ruled by Belgium France Italy Portugal or Spain and the African regions still belonging to three of them Twenty six states are presented in relation to French four to Italian six to Portuguese and two to Spanish They are considered in separate chapters according to their sociolinguistic situation linguistic history external language policy linguistic characteristics and internal language policy The result is a comprehensive overview of the Romance languages in modern day Africa It follows a coherent structure offers linguistic and sociolinguistic information and illustrates language contact situations power relations as well as the cross fertilization and mutual enrichment emerging from the interplay of languages and cultures in Africa **Critical Perspectives on Cameroon Writing** Hansel Ndumbe Eyoh, Albert Azeyeh, Nalova Lyonga, 2013 This landmark volume brings together a very rich harvest of forty critical essays on Cameroon literature by Cameroon literary scholars The book is the result of the Second Conference on Cameroon Literature which took place at the University of Buea in 1994 The Buea conference was motivated by a determination to look at Cameroon literature straight into its face and criticize it using literary criteria of the strictest kind Gone were the times when

the criticism was complacent because it was believed that a nascent literature could easily be stifled by application of rather strict canons of literary criticism Both writers and critics had a lot to say Subjects dealt with ranged from general topics on literature survival and national identity through specialized articles on prose poetry drama translation language folklore children s literature Journalism and politics It is the hope of the volume editors that the publication of these papers will instigate the kind of actions that were recommended and that the prolific nature of Cameroon literature will equally give rise to a prolific and robust criticism
