Real Estate Record and Builders' Guide ,1884 **Willing's Press Guide** ,1998 A guide to the press of the United Kingdom and to the principal publications of Europe Australia the Far East Gulf States and the U S A Hip Hop at Europe's Edge Milosz Miszczynski,Adriana Helbig,2017-03-27 Essays examining the impact of hip hop music on pop culture and youth identity in post Soviet Central and Eastern Europe Responding to the development of a lively hip hop culture in Central and Eastern European countries this interdisciplinary study demonstrates how a universal model of hip hop serves as a contextually situated platform of cultural exchange and becomes locally inflected After the Soviet Union fell hip hop became popular in urban environments in the region but it has often been stigmatized as inauthentic due to an apparent lack of connection to African American historical roots and black identity Originally strongly influenced by aesthetics from the United States hip hop in Central and Eastern Europe has gradually developed unique local trajectories a number of which are showcased in this volume On the one hand hip hop functions as a marker of Western cosmopolitanism and democratic ideology but as the contributors show it is also a malleable genre that has been infused with so much local identity that it has lost most of its previous associations with the West in the experiences of local musicians audiences and producers Contextualizing hip hop through the prism of local experiences and regional musical expressions these valuable case studies reveal the broad spectrum of its impact on popular culture and youth identity in the post Soviet world The volume represents a valuable and timely contribution to the study of popular culture in central and eastern Europe Hip Hop at Europe s Edge will not only appeal to readers interested in contemporary popular culture in central and eastern Europe but also inspire future research on post socialism s unique local adaptations of global cultural trends The Soviet and Post Soviet Review The authors of this edited volume do not romanticize and heroize the genre by automatically equating it with political opposition a fate often suffered by rock before Instead the book has to be given much credit for presenting a very nuanced picture of hip hop s entanglement or non entanglement for that matter with politics in this wide stretch of the world past and present The Russian Review Tropical Tree Seed Manual ,2002
