Pirate Nation Elizabeth I And Her Royal Sea Rovers

David Childs

Pirate Nation Elizabeth I And Her Royal Sea Rovers:

Pirate Nation David Childs, 2015-01-15 For all the romantic mythology surrounding the court of Queen Elizabeth I the financial underpinning of the reign of Gloriana was decidedly sordid Elizabeth's policy of seizing foreign assets made her popular at home but drew her into a partnership with pirates who preyed on the state's foes and friends alike being rewarded or punished depending on how much of a cut the Queen received rather than the legitimacy of their action For this reason the rule of law at sea was arbitrary and almost non-existent Even those such as the Lord Admiral and the Court of Admiralty who were tasked with policing the seas and eliminating piracy managed their own pirate fleets While honest merchants could rail and protest the value to the exchequer of this dubious income was enormous often equaling on an annual basis the input from all other sources such as taxation or customs dues Moreover the practice of piracy taught English seamen how to fight and when the nation was at its greatest peril in 1588 it was pirates who kept the Spanish Armada away from invading the English coast Charles Howard commander of the British forces Richard Grenville Walter Raleigh and Francis Drake were all pirates who became admirals all for England's sake and were well rewarded by the Queen for their exploits This highly original book argues that the deeply ingrained piratical and self-interested approach to naval warfare by these English captains almost allowed the Armada to succeed A radical reassessment of Elizabethan maritime history **Pirate Nation** makes this and a number of other startling revelations about the myth and the reality of Elizabethan naval policy A highly readable work this radical reappraisal of Elizabethan maritime practice offers provocative insights about some of the most cherished events in British history

Pirate Nation David Childs, 2014-10-14 For all the romantic mythology surrounding the court of Queen Elizabeth I the financial underpinning of the reign of Gloriana was decidedly sordid Elizabeth's policy of seizing foreign assets made her popular at home but drew her into a public-private partnership with pirates who preyed on the state's foes and friends alike being rewarded or punished depending on how much of a cut the Queen received rather than the legitimacy of their action For this reason the rule of law at sea was arbitrary and almost non-existent Even those such as the Lord Admiral and the Court of Admiralty who were tasked with policing the seas and eliminating piracy managed their own pirate fleets While honest merchants could rail and fail the value to the exchequer of this dubious income was enormous often equalling on an annual basis the input from all other sources such as taxation or customs dues However the practice of piracy taught English seamen how to fight and when the nation was at its greatest peril in 1588 it was pirates who kept the Armada away from the coast Effingham Grenville Raleigh and Drake became admirals all for England's sake but this highly original book argues that their deeply ingrained piratical approach to naval warfare almost allowed the Armada to succeed This is only one of a number of startling insights into the reality of Elizabethan naval policy offered by this honest and eminently readable reappraisal

Pirates Peter Lehr, 2019-07-16 In his lively vivid history of pirates Lehr finds some striking continuities from ancient to modern times Foreign Affairs A Choice Outstanding Academic Title of the Year In the

twenty first century pirates have regained a central place in Western culture thanks to an odd combination of a blockbuster film franchise and a dramatic rise in piracy around the Horn of Africa In this global history of the phenomenon maritime terrorism and piracy expert Peter Lehr casts fresh light on pirates Ranging from the Vikings and Wako pirates in the Middle Ages to modern day Somali pirates Lehr delves deep into what motivates pirates and how they operate He also illuminates the state s role in the development of piracy throughout history from privateers sanctioned by Queen Elizabeth to pirates operating off the coast of Africa taking the law into their own hands After exploring the structural failures that create fertile ground for pirate activities Lehr evaluates the success of counter piracy efforts and the reasons behind its failures Informative and often entertaining Lehr traces the global history of piracy quoting judiciously from an array of historians and sources to make his case The Times Groundbreaking provides a detailed analysis of the causes of piracy and reveals the operations of pirates ignored in most previous histories David Cordingly author of Under the Black Flag Policymakers would do well to read it as would aspiring pirates in search of career advice Financial Times

The Pirate Encyclopedia Arne Zuidhoek,2022-07-18 The romantic picture of pirates as colourful individuals terrorizing the seven seas has long eclipsed historical fact The Pirate Encyclopedia contains the most complete body of data available on the rovers rightful legitimacy as subjects of investigation For the first time we see so many pirates c 7 000 brought together This pirate s who s who including the women pirates makes it possible to see different areas and their significance and circumstances and so the essential companion for scholars students and a general audience intrigued by tales and facts

Piracy and the Origins of Universal Jurisdiction Mark Chadwick,2018-12-24 In Piracy and the Origins of Universal Jurisdiction Mark Chadwick relates a colourful account of how and why piracy on the high seas came to be considered an international crime subject to the principle of universal jurisdiction prosecutable by any State in any circumstances Merging international and domestic law history literature and sociology the author weaves an intricate tale that reveals the pirate to be the original enemy of mankind and forerunner of today s international criminals those who commit genocide crimes against humanity war crimes and aggression In so doing Mark Chadwick proposes a convincing reappraisal of the pirate s role in the crystallisation of international criminal law bringing much needed clarity to a disputed area of international legal history

The Elements in the Medieval World ,2024-08-19 The thirteen essays and the final poem contained in this volume reflect the fundamental importance of water across the whole breadth of medieval endeavour and understanding as both source of life and object of scholarly fascination whose manifestations were the source of rich symbolism and imaginings Ranging geographically from Ireland to the Arab world and from Iceland to Byzantium and chronologically from the fourth century CE to the sixteenth the essays explore perceptions and theories of water through a wide range of approaches Contributors are Michael Bintley Tom Birkett Laura Borghetti Rafa Borys awski Marilina Cesario Marusca Francini Kelly Grovier Deborah Hayden Simon Karstens Andreas Lammer David Livingstone Luca Loschiavo Hugh Magennis Colin Fitzpatrick Murtha Fran ois Quiviger Elisa

Ramazzina and Karl Whittington Strategy Before Clausewitz Beatrice Heuser, 2017-08-01 This collection of essays combines historical research with cutting edge strategic analysis and makes a significant contribution to the study of the early history of strategic thinking There is a debate as to whether strategy in its modern definition existed before Napoleon and Clausewitz The case studies featured in this book show that strategic thinking did indeed exist before the last century and that there was strategy making even if there was no commonly agreed word for it The volume uses a variety of approaches First it explores the strategy making of three monarchs whose biographers have claimed to have identified strategic reasoning in their warfare Edward III of England Philip II of Spain and Louis XIV of France The book then analyses a number of famous strategic thinkers and practitioners including Christine de Pizan Lazarus Schwendi Matthew Sutcliffe Raimondo Montecuccoli and Count Guibert concluding with the ideas that Clausewitz derived from other authors Several chapters deal with reflections on naval strategy long thought not to have existed before the nineteenth century Combining in depth historical documentary research with strategic analysis the book illustrates that despite social economic political cultural and linguistic differences our forebears connected warfare and the aims and considerations of statecraft just as we do today This book will be of great interest to students of strategic history and theory military history and IR in general

The Business of English Restoration Theatre, 1660-1700 Deborah C. Payne, 2024-06-13 Deborah C Payne explores how the duopoly of 1660 impacted company practices stagecraft the box office and actors and writers **Marque and Reprisal** Kenneth B. Moss, 2019-04-22 Letters of marque might suggest privateers of the Elizabethan era or the American Revolution But such conventions are duly covered in the US Constitution and the private military instruments they sanction are very much at work today in the form of mercenaries and military contractors A history of such practices up to the present day **Marque and Reprisal** by Kenneth B Moss offers unique insight into the role of private actors in military conflicts and the reason they are increasingly deployed in our day Along with an overview of mercenaries and privateers **Marque and Reprisal** provides a comprehensive history of the marque and reprisal clause in the US Constitution reminding us that it is not as arcane as it seems and arguing that it is not a license for all forms of undeclared war Within this historical context Moss explains why governments and states have sought control over warfare and actors and why private actors have reappeared in force in recent conflicts He also looks ahead to the likelihood that cyberwar will become an important venue for private warfare Moss wonders if international law will be up to the challenges of private military actors in the digital realm Is international law in fact equipped to meet the challenges increasingly presented in our day by such extramilitary activity A government makes no more serious decision than whether to resort to military force and war and when doing so Moss suggests it should ensure that such actions are accountable not on the sly and not decided in the marketplace **Marque and Reprisal** should inform future deliberations and decisions on that count **The English and French Navies, 1500-1650** Benjamin W. D. Redding, 2022 Challenges the received wisdom about the relative weakness of French naval power when

compared with that of England This book traces the advances and deterioration of the early modern English and French sea forces and relates these changes to concurrent developments within the respective states Based on extensive original research in correspondence and memoirs official reports and accounts receipts of the exchequer and inventories in both France where the sources are disparate and dispersed and England the book explores the rise of both kingdoms naval resources from the early sixteenth to the mid seventeenth centuries As a comparative study it shows that in sharing the Channel and with both countries increasing their involvement in maritime affairs English and French naval expansion was intertwined Directly and indirectly the two kingdoms influenced their neighbours sea programmes The book first examines the administrative transformations of both navies then goes on to discuss fiscal and technological change and finally assesses the material expansion of the respective fleets In so doing it demonstrates the close relationship between naval power and state strength in early modern Europe One important argument challenges the received wisdom about the relative weakness of French naval power when compared with that of England

Pirate Nation Elizabeth I And Her Royal Sea Rovers Book Review: Unveiling the Power of Words

In some sort of driven by information and connectivity, the energy of words has be more evident than ever. They have the ability to inspire, provoke, and ignite change.
