Pregnancy in Practice Sallie Han, 2013-07-01 Babies are not simply born they are made through cultural and social practices Based on rich empirical work this book examines the everyday experiences that mark pregnancy in the US today such as reading pregnancy advice books showing ultrasound baby pictures to friends and co workers and decorating the nursery in anticipation of the new arrival These ordinary practices of pregnancy the author argues are significant and revealing creative activities that produce babies They are the activities through which babies are made important and meaningful in the lives of the women and men awaiting the child's birth This book brings into focus a topic that has been overlooked in the scholarship on reproduction and will be of interest to professionals and expectant parents alike

Out of Chaos Jessica LaGrone, 2022-05-10 Life is a hot mess There's the bedlam of getting out the door in the morning The constant breaking down of our homes and bodies and the cars we drive And the institutions that promise to help are often no better We are surrounded by the constant disorder of governments and disappointed by organized religion the very entities that tell us they can provide us sanity and security Instead they leave us scratching our heads or licking our wounds Chaos surrounds us and at times it seems to rule our souls our families and our world But does chaos always end in failure or flaw What if chaos was more than the check engine light of lost causes What if chaos was the raw material out of which God

creates In the beginning God brought order from chaos filling the chaos with a beautiful creation and he s been doing it ever since Where you and I may experience confusion and disorder God sees an opportunity for something new for a rebirth a renewal and a renovation God did this in the beginning he did it again at the cross and with renewed vision for our disordered world today we look to God to do it again Inspired by the powerful picture of creation in Genesis 1 2 author Jessica LaGrone challenges the hope destroying belief that God has abandoned us in our broken relationships our pain and our grief In the midst of our out of control lives God is there and he specializes in making new things from the chaos threatens to drown us When we experience chaos in our own lives and everything feels like it is falling apart God is just getting started When the Spirit of God hovers chaos can give birth to hope Nursing Times ,2008
