<b>Claim:</b>
There are different aquatic systems with diverse organisms.

Evidence	Reasoning/Justification
Aquatic ecosystems have abiotic - temp, light, salinity, depth	Different organisms can tolerate different factors
Some organisms prefer fresh water vs. saltwater. Bull sharks + manatees tolerate both	Bull sharks and manatees are very different, but tolerate same conditions
Depth reduces light and increases pressure. Organisms deal with this differently.	Many types of adaptations exist to survive in these conditions
The geography of an aquatic environment can determine the life forms present.	Continental shelf gets lots of light, so there's many living things. Not so in the abyss.
Photosynthesis takes place in the neritic zone.	It is the most productive area of the ocean. Plankton are base of food chain.
Metabolism is affected by temp. Many species are cold-blooded.	Organisms can migrate or must have adaptations to survive.

Frazee, 2012-07-03 History teachers aren't expected to teach science math teachers aren't expected to teach social studies so why are all teachers responsible for teaching reading The answer is simple An emphasis on reading and literacy skills in the content areas has an exponential effect on learning in every discipline This completely revised third edition of the best selling Teaching Reading in the Content Areas seeks to help educators understand how to teach reading in their respective disciplines choose the best reading strategies from the vast array available and positively impact student learning Throughout it draws from new research on the impact of new technologies the population boom of English language learners and the influence of the Common Core State Standards Given the complexities of the reading process teachers deserve and this book provides clear research based answers to overarching questions about teaching reading in the content areas What

specific skills do students need to read effectively in each content area Which reading strategies are most appropriate to help students become more effective readers and independent learners What type of learning environment promotes effective reading and learning By focusing on the differences in how content area experts read and reason teachers can be better prepared to help their students understand that the ways they read in biology are different from the ways they read in English history or mathematics To read successfully in different content areas students must develop discipline specific skills and strategies along with knowledge of that discipline With that in mind this book also includes 40 strategies designed to help students in every grade level and across the content areas develop their vocabularies comprehend informational and narrative texts and engage in meaningful discussions of what they read [The Underwater Eye](#) Margaret Cohen,2022-04-12

In *The Underwater Eye* Margaret Cohen tells the fascinating story of how the development of modern diving equipment and movie camera technology has allowed documentary and narrative filmmakers to take human vision into the depths creating new imagery of the seas and the underwater realm and expanding the scope of popular imagination Innovating on the most challenging film set on earth filmmakers have tapped the emotional power of the underwater environment to forge new visions of horror tragedy adventure beauty and surrealism entertaining the public and shaping its perception of ocean reality Examining works by filmmakers ranging from J E Williamson inventor of the first undersea film technology in 1914 to Wes Anderson who filmed the underwater scenes of his 2004 *The Life Aquatic with Steve Zissou* entirely in a pool *The Underwater Eye* traces how the radically alien qualities of underwater optics have shaped liquid fantasies for more than a century Richly illustrated the book explores documentaries by Jacques Cousteau Louis Malle and Hans Hass art films by Man Ray and Jean Vigo and popular movies and television shows such as *20 000 Leagues Under the Sea* *Creature from the Black Lagoon* *Sea Hunt* the Bond films *Jaws* *The Abyss* and *Titanic* In exploring the cultural impact of underwater filmmaking the book also asks compelling questions about the role film plays in engaging the public with the remote ocean a frontline of climate change
