MHC/AAM

03/26/02

Quadrant	1	2	3	Score
Quadrant 1, Right Mode: Connecting	The teacher has little or no connecting activity to introduce the concept.	Students are not interested in the activity.	The activity connects learners to the concept in a personal way and directly relates to the concept.	
Quadrant 1 Left Mode: Attending	Students have difficulty in forming small groups.	Students have little interaction in their groups.	This activity is well linked to 1R. Feelings about the activity experience are shared.	
Quadrant 2 Right Mode: Imagining	Learners have difficulty in making the link between the concept and content.	Students have trouble developing and image to depict content.	The created bridge blends the previous experiences of the learners with the concept leading the way for an examination of the expert content. The concept is transformed into a wordless image.	
Quadrant 2 Left Mode: Informing	The teacher lectures without group interaction.	Same as before with the addition of video and or guest expert.	The content is delivered in a developmentally appropriate manner and organized for easy understanding by the students.	
Quadrant 3 Left Mode: Practicing	There are some worksheets and teacher prepared exercises.	Students are at stations at work centers requiring them to engage different learning activities.	Learners are asked to look at information in new ways. In addition, learners prepare practice materials for fellow students.	
Quadrant 3 Right Mode: Extending	Learners are asked to extend the learning into their own lives by discussion.	Learners design real problems with real-world applications.	Many options for are offered and they are created to appeal to each of the four learning styles and require both analyzing and synthesizing.	
Quadrant 4 Left Mode: Refining	The teacher uses tests to evaluate the learning.	Learners participate in self-evaluation, editing, refining and reworking of their learning based on agreed-upon rubrics.	Learners get input from peers and the teacher to assess their learning.	
Quadrant 4 Right Mode: Performing	Learners report/demonstrate/perform what they have learned.	Those who receive the report, demonstration or performance assess positively.	Learners integrate the content by asking complicated questions as a result of the learning.	
Total Points:				

## Brain Processing

### Left Mode – Right Mode

**Left Mode Processing:** Left- Operates best through structure, sequence. Prefers language, is sequential, examines the elements, has number sense. Works to analyze or break down information.

**Right Mode Processing:** Right- Operates out of being, comprehends images, seeks patterns, creates metaphors, is simultaneous. Strives to synthesize, consolidate information.

,2005 Claiming Identity Through Redefined Teaching in Construction Programs Mostafa, Sherif,Rahnamayiezekavat,  
Payam,2019-07-31 Without a rich learning source that presents state of the art pedagogy covering the key areas of  
contemporary practice the industrial field may fall out of line with the current times By reforming itself to embrace new  
norms such as social responsibility deploying modern construction methods including modular building and modernizing  
construction contracts the recent literary material will only positively influence the workforce of the world Claiming Identity  
Through Redefined Teaching in Construction Programs provides scholarly insights into the learning and teaching  
mechanisms developed at different institutions to address the ever changing attributes in the field of construction  
management Featuring topics that include artificial intelligence industrial law and operations management the book is ideal  
for educators industrial managers academics researchers and students A Case Study of Transfer of Learning Activities in  
a Trainer of Trainers Program Maureen L. Griffin,1997 **Differentiation** Rick Wormeli,2023-10-10 Differentiation From  
Planning to Practice author Rick Wormeli provides an overview of the cognitive science behind differentiation As a teacher  
you know a one size fits all education doesn t work students are more diverse than ever In his book Wormeli gives a step by  
step process to create a fully crafted differentiation lesson and shows the necessary planning for an effective lesson design  
for diverse classrooms Wormeli demonstrates how to weave common and novel differentiation strategies into all subjects and  
offers clear advice about what to do when things don t go as expected Based on nearly thirty years of experience as a teacher  
and instructional coach his thoughtful and imaginative classroom accommodations will help teachers succeed with advanced  
students struggling students English language learners and students across the multiple intelligences spectrum

Innovations in Non-Traditional Educational Practices** Keengwe, Jared,2020-12-11 While many school districts and  
institutions of higher education still cling to the traditional agrarian school year with a factory model delivery of education  
and Carnegie units based on seat time when most people are no longer farmers factory workers or reliant on learning in a  
classroom there are bursts of promising practices that buck the norm by questioning the educational value of these traditions  
Though researchers have investigated the potential of students learning in their own homes via personalized instruction  
delivered by computers rather than attending traditional institutions the status quo in education has remained stubbornly  
resistant to change Mixed reality simulations year round schooling grouping students by competencies instead of age and  
game based teaching are just a few of the educational innovations that seek to maximize learning by recognizing that

innovation is essential for successfully teaching students in the modern era The Handbook of Research on Innovations in Non Traditional Educational Practices is a comprehensive reference source that examines various educational innovations how they have developed workarounds to navigate traditional systems and their potential to radically transform teaching and learning With each chapter highlighting a different educational innovation such as experiential learning game based learning online learning and inquiry based learning and their applications in all levels of education this book explores the issues and challenges these educational innovations face as well as their impact It is intended for academicians professionals administrators and researchers in education and specifically benefits academic deans vice presidents of academic affairs graduate students faculty technology leaders directors of teaching and learning centers curriculum and instructional designers policymakers principals and superintendents and teachers interested in educational change
