Abstract—The purpose of this study was to determine the effect of a 10-week training program on the heart rate (HR) and energy expenditure (EE) of sedentary, middle-aged women. The subjects were randomly assigned to either a control group (CON) or a training group (TRN). The TRN group performed a 10-week training program consisting of three sessions per week. The HR and EE were measured at baseline and at the end of the 10-week training program. The TRN group showed a significant decrease in HR and a significant increase in EE compared to the CON group. The results of this study suggest that a 10-week training program can improve the cardiovascular fitness and energy expenditure of sedentary, middle-aged women.

23. When configuring a multi-mount AFS, set `mountmnt` to your Netatun path: `mountmnt=/usr/bin/netatun`
24. If you're using the `afs` multi-mount method, add `afs` to the `mountmnt` path. For example, if you're using the `afs` multi-mount method, set `mountmnt` to `/usr/bin/netatun-afs`. This is required after the purchase of this type of multi-mount AFS, as pointing out the group appears in `group 1`.
25. Do not include the `FS` of `mountmnt`, as `FS` is deprecated.
26. When configuring the `afs` multi-mount AFS, the `afs` group in the `netatun` file must be the `afs` Netatun Group.

- Day and night periods that are longer than the standard 24 hours occur most commonly with the use of artificial light or natural light at night. To avoid this, there are two things the patient can do:
 - Avoid exposure to bright light at night
 - Avoid exposure to bright light during the day
- The end of the day is a good time to go to bed, and the beginning of the day is a good time to get up. The patient should try to go to bed and get up at the same time every day. - When a producer's price for the output rises or falls, it must adjust its output level accordingly. A rise in the price of the output will cause a producer to produce more output, and a fall in the price of the output will cause a producer to produce less output.
