

NY5 Making Connections Lab Questions

1. A non-extension of the lab activity: Making Connections, a biology teacher asked students to transform variable *x* rather than *y* so that *x* would affect heart rate. The students hypothesized that eating a lunch high in protein would decrease heart rates. They recorded resting heart rates of 20 students, had them eat high protein meals, and then recorded their heart rates again. The heart rates of 15 students were lower while the heart rate of 5 students were higher after lunch.

The least contradiction for the observation that the least rates of 5 students were higher after Day 3 is

- A) the least rate of female student : are not affected by a high protein meal.

B) the students all participated in physical education class immediately before lunch.

C) the students all had varying physical fitness level and consumed different amounts of protein.

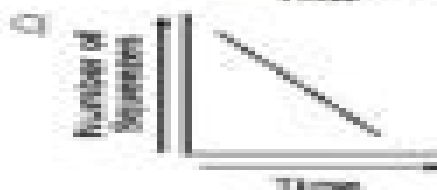

D) the students were all the same gender and age.
- In the lab activity Making Connections, an experiment was designed to test the effect of exercise on the ability to open a clothespin. The number of times the clothespin was opened served as the

A) independent variable.

B) dependent variable.

C) hypothesis.

D) control.
- A student is opening and closing clothespins as part of a lab activity. The student begins to experience muscle fatigue, and the rate at which the student is opening and closing the clothespins slows. Which graph best represents the relationship between a time and number of clothespin opened?

4. During periods of vigorous physical activity, a person's breathing and heart rates increase. This enables _____ the cells of the body to perform more efficiently because it helps the cells to _____.
- A) remove waste products faster B) store excess glucose in muscles
C) reduce the amount of ATP produced D) convert more oxygen to glucose
5. A person's pulse rate generally goes down while sleeping. One reason for this decrease is _____.
- A) the body is producing more carbon dioxide when a person is sleeping.
B) a person is not using energy while sleeping.
C) a person requires less oxygen when sleeping.
D) the body is using more nutrients while asleep.

Learning Communities Through Teacher Expertise Giselle O. Martin-Kniep, 2003-10-14 No book I have read in the past ten years has made clearer to me the difference between what I am doing as a professional developer and what I should be doing. It is so unrelentingly honest about the difficulty of our work and yet so rich in practical examples that I cannot help but feel inspired to move forward and change the way I teach and learn with teachers. Richard W. Strong, Vice President, Silver Strong, however, this book is concise, provides excellent templates, and is backed by real experiences and expertise. Suzanne C. Fonoti, Principal, Flagstaff, Arizona Unified School District. Forget expensive consultants; use the expertise within your own school for quality professional development. Martin Kniep offers practical methods for developing a reflective collaborative environment where teachers and administrators work together to enhance teachers' practices, increase student learning, and produce valuable school processes. *Developing Learning Communities Through Teacher Expertise* includes frameworks, templates, and examples that can be employed to determine the value and implications surrounding the use of teacher-designed standards-based curriculum and assessment, data-driven inquiry, and professional portfolios. Based on work completed at the nonprofit Center for the Study of Expertise in Teaching and Learning, this innovative volume includes examples of teachers' reflections, portfolio artifacts, and student work. Sample standards-based curriculum units for different content areas and grade levels, discussion questions, and recommended readings. Sample worksheets and self-assessments. Standards-based curriculum and assessment design tools. Sample rubrics for student and teacher development. *Developing Learning Communities Through Teacher Expertise* offers step-by-step instructions for developing an action plan for incorporating learning communities into a school. Providing numerous real-life examples, Martin Kniep includes three specific teaching units and supporting material which illustrate how to identify and capitalize on teachers' existing expertise.
