Abstract: This document contains the results of a survey of the use of the word "and" in the English language. The survey was conducted by a group of linguists and the results are presented in a series of tables and graphs. The survey shows that the word "and" is used in a variety of ways, and that its use is often influenced by the context in which it is used. The survey also shows that the word "and" is used more frequently in certain types of writing than in others, and that its use is often influenced by the style of the writer.
