Reflective Social Work Practice demonstrates how social workers can creatively and consciously combine 'thinking, doing and being' when working with individuals, families, groups, communities and organisations, and when undertaking research. It discusses conceptual and theoretical aspects of reflective practice and presents a new, cohesive reflective social work practice model. It explores the themes of thinking (theory), doing (practice) and being (virtues). By defining 'being' in terms of virtues, the authors provide new perspectives for improved learning and practice in social work. Each chapter features reflective exercises, examples, review questions and activities to engage and challenge readers. Extended case studies throughout illustrate how a holistic approach to social work can enhance practice and enrich the quality of services delivered to people and communities. Written by authors with extensive professional experience in social work, Reflective Social Work Practice is an invaluable resource for social work, human services and welfare students, educators and practitioners alike.

capacity to handle difficulties demands and pressure without experiencing negative effects. Traditionally, social work has focused on the nature and impact of resilience in children and adults who have experienced traumatic events, but it is increasingly recognised that social workers need to develop personal resilience to manage the emotional demands of the job effectively and sustainably. *Developing Resilience for Social Work Practice* provides social workers with a tool box of strategies to help them enhance their resilience and protect their wellbeing. Written by experienced practitioners in the field, the book draws on key research to present a series of evidence-based interventions. These strategies are designed to help social work students and practitioners develop important qualities that underpin resilience, such as self-awareness, time management, relaxation skills, and empathy, as well as enable them to gain support from their personal and professional networks. Grounded in both theory and practice, each chapter explores how the various resilience techniques can be applied to help social workers manage the complexities and challenges they face in everyday practice. The use of relevant and engaging case studies throughout is particularly useful in bringing the book to life for the reader.

Counselling Skills for Social Workers Hilda Loughran, 2018-11-20. Counselling skills are very powerful. Really listening and providing compassionate empathy without judging is a core part of social work practice with service users. This book provides a theoretically informed understanding of the core skills required to provide counselling interventions that work. It provides a detailed discussion of three core skills which are identified as talking and responding, listening and observing, and thinking. Over 11 chapters, these core skills are described in terms of what they mean, how they can be learned and developed, how they can be used and misused, and most importantly, how specific skills can be employed in a coherent and evidence-informed counselling approach. Loughran also looks in detail at the skills required to deliver interventions consistent with three approaches: Motivational Interviewing, Solution Focused Work, and Group work. Illustrative case examples and exercises offer further opportunities for reflection and exploration of self-awareness, as well as for practising and enhancing skills development, thus making the book required reading for all social work students, professionals looking to develop their counselling skills, and those working in the helping professions more generally. Terms such as social worker, therapist, and counsellor will be included as they inform counselling skills in social work.
