WHAT IS ADDICTION?

THE STIGMA OF ADDICTION

Stigma is another reason why the use of substances and problems may be higher than others. Stigma means substance use problems are shameful and makes people want to hide their addiction.

Stigma also affects the families of people with addiction. It makes them feel the problem or problem is not theirs or it is not their family's problem.

What can we do about stigma? One single way we can help is to change the talk about 'people with substance use problems' rather than about 'alcohol', 'drugs', 'cigarettes' or 'smoking'. Try this approach: whether you are talking about another person or about yourself, allow you to do this you put the person ahead of the problem. This helps to show that you know there is more to a person than a problem. You are also giving the person with an addiction the respect and understanding it takes to recover.
