Student Training Manual

Introduction

Welcome to New Orleans Shaolin. Enclosed in this document are some materials to assist you in your introduction to the *kwoon*, or school. You will find the school rules, training tips, information on rank advancement, tournaments, and information on all of the school programs. We hope you will refer to the manual often and we encourage you to keep a journal for yourself wherein you can keep notes on your training, your forms, and to set and track your goals.

At New Orleans Shaolin, we teach an art called Shaolin-Do, or "the way of Shaolin". Shaolin-Do is more than a martial art. It is a path. It follows a 1500 year old trail all the way back to the original Shaolin temples of China. The monks at these temples learned to incorporate martial arts into their spiritual training only so they could maintain their way of life uninhibited by violent outsiders. It is not merely a way of fighting but a path to the mastery of life. Tournaments and ranking are not emphasized in this style, though both exist within it. Our founder Grandmaster Sin Kwang The' teaches health, longevity and appreciation of life. As we like to say, being an excellent fighter and being capable of defending your family and loved ones is just one of the benefits. **The practice is the goal.**

Mission

To preserve and embody the mental and physical practices of the Shaolin temples.

A Brief History of Shaolin-Do

Shaolin-Do is the original blend of hard and soft fighting arts. It doesn't rely only on body rigidity to develop power like Karate, but instead generates force from natural body mechanics and circular movements. Shaolin-Do, however, is more than just a fighting art; it is a way of perfecting oneself. By attempting to master these ancient styles of fighting, we actually come closer to mastering ourselves. This happens as you are learning to make your body perform tasks and postures that it has never attempted before, your mind begins to realize that you can do anything and this wonderful idea pervades every aspect of your life! This is not to imply that after you have trained with Shaolin-Do for a time that you will be able to do anything! The key is

first in the Tang dynasty 618 907 and continue to the present Scholars of Buddhism and Chinese history will learn much from the author's scrupulous analysis of the historical record particularly the texts on stone steles at the monastery that documents the monastery's traditions of fighting Anyone interested in martial arts or Bruce Lee films will find it fascinating to learn about the actual history of the monastery's fighting techniques I found the book a powerful and compelling read

Valerie Hansen Yale University Meir Shahar's book will assure that the martial arts of Shaolin take a prominent place in the history of Chinese Buddhism Shahar has mastered a prodigious amount of secondary scholarship pored over a wealth of primary documents and brought a critical rigor to the study of these materials that is unprecedented in any language Throughout his analysis is cogent and clear The result is a delightful tour of one of the most enigmatic and compelling stories of Chinese religion the emergence and development of martial arts at Shaolin Si Entertaining as the book is it delivers as well a meditation on the sources of Chinese religion and how fiction and scripture myth and history combine to produce novel traditions The Shaolin Monastery will appeal not only to scholars of Chinese religion but to those interested in military history self cultivation martial arts and popular culture John Kieschnick University of Bristol The Shaolin Monastery charts for the first time in any language the history of the Shaolin Temple and the evolution of its world renowned martial arts In this meticulously researched and eminently readable study Meir Shahar considers the economic political and religious factors that led Shaolin monks to disregard the Buddhist prohibition against violence and instead create fighting techniques that by the twenty first century have spread throughout the world He examines the monks relations with successive Chinese regimes beginning with the assistance they lent to the seventh century Emperor Li Shimin and culminating more than a millennium later with their complex relations with Qing rulers who suspected them of rebellion He reveals the intimate connection between monastic violence and the veneration of the violent divinities of Buddhism and analyzes the Shaolin association of martial discipline and the search for spiritual enlightenment Shahar's exploration of the evolution of Shaolin fighting techniques serves as a prism through which to consider martial art history in general He correlates the emergence of the famous bare handed techniques of Taiji Quan Xingyi Quan and Shaolin Quan in the sixteenth and seventeenth centuries to the social political and religious trends of that age He then goes on to argue that these techniques were created not only for fighting but also for religious and therapeutic purposes Thus his work fills an important gap in the understanding of Chinese religion and medicine as well as the martial arts The Shaolin Monastery is the most exhaustive study to date on the topic and the most systematic introduction to the history and the religious context of the Chinese martial arts tradition It will engage those interested in Chinese religion and history and martial arts illuminating for specialists martial artists and general readers alike the history and nature of a martial tradition that continues to grow in popularity in its native land and abroad
