Snow, 2022-06-28 A scripted open and go program that will have you teaching math confidently even if you've never taught math before. From popular math educator Kate Snow, this easy-to-use program will give parents the tools they need to teach Math with Confidence even if they've never taught math before. Short, engaging and hands-on lessons will help children develop a strong understanding of Second Grade math step by step: reading, writing and comparing numbers to 1000, adding and subtracting 2 and 3 digit numbers, solving addition and subtraction word problems, telling time, counting money and measuring length, reading graphs, identifying 2 D and 3 D shapes and understanding simple fractions. Children will develop both strong number sense and a positive attitude toward math with fun activities like Pretend Restaurant, Measurement Tag and Fraction Bump. All you'll need are this Instructor Guide, the Student Workbook and simple household items like play money, base ten blocks, a clock and a ruler to make math come alive for children. Short, hands-on and developmentally appropriate lessons. Games and pretend activities make math fun. Easy to use with clear directions and explanatory notes.
