Written in a tutorial style, this book gives in plain English a step by step development of the defining principles of OLAP analysis through the lens of the programming language at the heart of Oracle's OLAP database option. You will find this book packed with examples, tricks, and techniques, concrete illustrations of the programming elements needed to implement. The basics will all be there as well as advanced techniques that you can use to address the most demanding requirements. OLAP will be addressed as an analysis platform. You will learn how to make business intelligence applications smarter by upping the analytical octane. You will learn both the classic applications of OLAP analysis as well as more exotic approaches. You will learn where OLAP fits in among other analytical approaches such as statistics and data mining. So whether you are a developer wanting to learn Oracle's counterpart to Microsoft's MDX or an

analyst wanting to understand the quantitative possibilities of OLAP The Multi dimensional Data Modeling Toolkit will show you what you need to know to go from beginner to expert in the application of OLAP analytics with Oracle OLAP DML

Institutional Research Initiatives in Higher Education Nicolas A. Valcik, Jeffrey Alan Johnson, 2017-11-06. American higher education faces a challenging environment. Decreasing state appropriations, rising costs, and tightening budgets have left American colleges and universities scrambling to achieve their missions with ever more limited resources. Campus leaders have therefore increasingly relied upon institutional research and strategic planning departments to make transparent and rational decisions and to promote good stewardship of critical but finite resources. *Institutional Research Initiatives in Higher Education* illustrates the wealth of institutional research activities occurring in American higher education. Featuring chapters by a prominent mix of authors representing community colleges

traditional undergraduate institutions land grant institutions research and flagship universities and state agencies this book provides numerous insights into the contemporary challenges innovative programs and best practices in institutional research With contributors from a variety of regions and types of institutions each chapter provides rigorous analysis of campus based research activities in areas such as strategic planning admissions and enrollment management assessment and compliance and financial planning and budgeting Like the departments it studies Institutional Research Initiatives in Higher Education is an invaluable resource for university administrators researchers and policymakers alike
