

What are SMART Goals?

Every successful business has clearly set and articulated goals to attain specific objectives. SMART Goals is an acronym for specific, measurable, attainable, relevant, time-based objectives.

SPECIFIC 	MEASURABLE 	ACHIEVABLE 	RELEVANT 	TIME-BASED 
<p>Answer the 5W's:</p> <ul style="list-style-type: none">• Who's involved?• What do I want to accomplish?• When do I want to achieve this?• Where does my goal take place?• Why is the goal important?	<p>What metrics are you going to use to determine if you meet the goal?</p> <p>If it's a project that's going to take a few months to complete, then plan and set some milestones by considering specific tasks to accomplish.</p>	<p>The goal is meant to inspire motivation. Think about how to accomplish the goal and if you have the tools/ skills needed.</p> <p>If you don't currently possess them consider what it would take to attain them.</p>	<p>A goal needs to align with your company objective.</p> <ul style="list-style-type: none">• Does this seem worthwhile?• Is this the right time?• Does this goal align with my other goals?• Am I the right person to be working on this project/task?	<p>Anyone can set goals, but if it lacks realistic timing, chances are you're not going to succeed.</p> <p>Ask specific questions about the goal deadline and what can be reached and accomplished within that time period.</p>
