Traditional performance management processes are often ineffective in increasing workforce engagement and fostering a positive employer-employee relationship. The established method of annually scoring employees against a list of static objectives can make employees feel undervalued and frustrated and can hinder rather than advance staff development. *Unlocking High Performance* shows you how to transform this process to get the best out of your workforce. It presents a new model for performance management based on the three components of planning, cultivation and accountability and situates this process within the wider aims of promoting work as a healthy relationship between employer and employee rather than a restrictive contract to be complied with. *Unlocking High Performance* equips you with the tools needed to create clear expectations and goals, deliver feedback effectively and to develop a culture of coaching rather than criticism. This book also provides practical guidance on how to identify and remove obstacles effectively, manage underperformance and how to get buy-in for change. Packed with tips, tools and examples from organizations including Vistaprint, NVIDIA and South Dakota State University, this book provides everything needed to design a performance management process which will improve employee experience, help them reach their full potential and
