Architecture Sussan Babaie, Talinn Grigor, 2015-02-17 Since the Shah went into exile and the Islamic Republic was
 established in 1979 in the wake of the Iranian Revolution the very idea of monarchy in Iran has been contentious Yet as
 Persian Kingship and Architecture argues the institution of kingship has historically played a pivotal role in articulating the
 abstract notion of Iran since antiquity These ideas surrounding kingship and nation have in turn served as a unifying cultural
 force despite shifting political and religious allegiances Through analyses of palaces mausolea art architectural decoration

and urban design the authors show how architecture was appropriated by different rulers as an integral part of their strategies of legitimising power They refer to a variety of examples from the monuments of Persepolis under the Achamenids the Sassanian palaces at Kish the Safavid public squares of Isfahan the Qajar palaces at Shiraz and to the modernisation and urban agendas of the Pahlavis Drawing on archaeology ancient medieval early and modern architectural history both Islamic and secular this book is indispensable for all those interested in Iranian studies and visual culture
