Riddles For Ciclatory:

Unriddling the Exeter Riddles Patrick J. Murphy, 2011-03-28 The vibrant and enigmatic Exeter Riddles ca 960-980 are among the most compelling texts in the field of medieval studies in part because they lack textually supplied solutions. Indeed, these ninety-five Old English riddles have become so popular that they have even been featured on posters for the London Underground and have inspired a sculpture in downtown Exeter. Modern scholars have responded enthusiastically to the challenge of solving the Riddles but have generally examined them individually. Few have considered the collection as a whole or in a broader context. In this book, Patrick Murphy takes an innovative approach, arguing that in order to understand the Riddles more fully, we must step back from the individual puzzles and consider the group in light of the textual and oral traditions from which they emerged. He offers fresh insights into the nature of the Exeter Riddles, their intellectual foundations, and their lively use of metaphor. Society and Circulation Claude Markovits, Jacques Pouchepadass, Sanjay Subrahmanyam, 2006 The idea of an eternal India based on stable and unchanging villages has been in disarray for at least two decades. However, having demolished this myth, historians have been rather less able to construct an alternative vision. This volume sets out to do just that, using the idea of circulation in relation to South Asia in the colonial period. It comprises a set of complementary essays which deal with merchant circulation, pilgrimages, cartography, policing, labor mobility, and the movement of itinerant groups from colonial administrators to wandering bards, demonstrating that the South Asia of this period was made and remade by changing patterns and the logic of circulation. Once this perspective is integrated into the analysis of society, new and disturbing questions emerge on issues such as culture, identity, and ethnogenesis, which are normally treated in the context of fixed and stable societies. The essays in this volume, written by some of the leading authorities in South Asian history, break new ground in suggesting the outlines of a different framework for historical analysis. This volume will interest not only South Asianists but also those interested in historical method as well as wider comparative perspectives on early modern and contemporary history. The Literary Riddle in Early Modern Italy Marco Arnaudo, 2025-08-05 This book describes the development of the literary riddle in Renaissance Italy when poets appropriated riddles from oral tradition, combined them with the conventions of literature, and paired them with solutions that could be checked after reading. This book includes an original theoretical framework for the investigation of riddles, dividing riddles into categories based on their enigmatic link. A section about the social uses of riddles in early modern Italy shows how riddles were routinely exchanged at soirees and in the activities of academies and congregations in all environments where the folk qualities of the riddle could be playfully appreciated. The riddle became a key element in narrative works by Giovanni Francesco Straparola and Ascanio de Mori, and for the first time it fueled enough collections of poems to trigger an entire genre. Examples will come from Angelo Cenni, Daphne di Piazza, Girolamo Musici, Tommaso Stigliani, Giulio Cesare Croce, Antonio Malatesti, and many others. **Reading is Funny! More importantly, these essays reveal the human need for symbolic ordering, riddles being one such form of cultural ritual.

Circulation, Translation and Reception Across Borders Elio Baldi, Cecilia Schwartz, 2023-12-15

This volume offers a detailed analysis of selected cases in the reception, translation, and artistic reinterpretation of Italo Calvino's *Invisible Cities* (1972) around the world. The book traces the many different ways in which Calvino's modern classic has been read, translated, and adapted in Brazil, France, the Netherlands, and Flanders, Mexico, Romania, Scandinavia, the USSR, China, Poland, Japan, and Australia. It also offers analyses of the relation between Calvino's book and, respectively, the East and Africa, as well as reflections on the book's inspiration for, and resonance in, dance, architecture, and art. The volume thus traces the diversity in the reception and circulation of *Invisible Cities* in different countries and continents, offering a much wider framework for the discussion of Calvino's masterpiece than before and a more detailed picture of its cultural and linguistic ramifications. This book will be of interest to scholars in Comparative Literature, World Literature, Translation Studies, Italian Studies, Romance Languages, European Studies, Dance, Architecture, and Media Studies, as well as to scholars specialised in paratext and reception.

Old English Ecotheology Courtney Barajas, 2025-10-01

Old English Ecotheology examines the impact of environmental crises on early medieval English theology and poetry. demonstrates the influence of that theology on contemporaneous poetry Taking the Exeter Book as a microcosm of the poetic corpus she explores the impact of early medieval apocalypticism and environmental anxiety on Old English wisdom poems riddles elegies and saints lives
