Hang-Ups Benjamin Linley Wild,2024-01-11 The Covid 19

pandemic heightened people's awareness of long standing inequalities within the fashion industry Amid calls for greater accountability and ethical awareness efforts are being made within and beyond the industry chiefly in the cultural and education sectors to decentralize fashion to make the conception creation and consumption of fashionable dress and appearance less western centric Supporting this premise Hang Ups argues that purposeful and permanent change within the fashion industry and fashion education is more likely if it is understood how the contemporary industry became western centric To institute effective change it is necessary to revert to first principles and understand how the fashion industry developed into what it is today During a period when the concepts of fashion history and culture are being intensely scrutinized and with suggestions they are reaching their nadir the imperative to understand the extent to which they relate and facilitate the presentation of people's fashionable bodies is urgent Hang Ups explores the origins and consequences of the fashion industry's western centrism by focusing on nine binaries defined in the crucible of empire that continue to be sites of negotiation as the west's traditions and ideals are contested by different cultural perspectives and changing global realities Български технически каталог , 2016 2017 *Who Owns Whom* ,2007 *Solar Capacitors and Batteries*

Obstructive Marketing Maitland Hyslop,2016-05-23 In Obstructive Marketing Maitland Hyslop deals with a very negative kind of activity which embraces activities legal or otherwise designed to prevent or restrict the distribution of a product or service temporarily or permanently against the wishes of the product manufacturer service provider or customer

When the author defined this phenomenon as Obstructive Marketing and started to research it more than a decade ago it was seen as a valid concept that was perhaps ahead of its time The World has moved on and in the era of globalization a study of this negative aspect of marketing is now required Obstructive Marketing is now seen as the business equivalent of asymmetric warfare which is increasingly understood because the rise of the South and East at the expense of the North and West has brought some Obstructive Marketing stratagems into sharp focus Using the author s own research this book explains what Obstructive Marketing is and why it is not called Anti Marketing The author explains who practises Obstructive Marketing where when and how and why businesses are particularly vulnerable when entering new markets and engaging in change and innovation Intriguing concepts such as cultural risk are illuminated along with formal links between Obstructive Marketing asymmetric warfare and terrorism This all leads to identification of the need for a strong Government Business partnership to counter the effects of this darkest kind of marketing
