

The Scholarship Personal Essay

The Personal Essay one of the most important parts of your scholarship application. This is your chance to let the Scholarship Committee or Donor know your educational and career goals, why you have selected your stated major and career goal, your life experiences which have influenced this decision, and your anticipated role in society after your career goal has been achieved. It is as if you had ten minutes to sit face-to-face with the Committee or Donor and let them know why you feel you should be a recipient of a scholarship from Riverside Community College District. However, to put all this on paper can be difficult and even intimidating.

1. First, let's begin with the **basic format** of your essay:

- Your essay *must* be in electronic format (in other words, typed on your computer in Microsoft word or PDF and *less than* 5MB).
- Save your essay to your desktop or a memory device (such as a memory stick, flash drive, thumb drive, etc.). You will be asked to upload it as part of your online scholarship application.
- Be sure to include your name and student ID# in the heading.
- It is best if your essay is no more than 2 pages.
- Make your essay easy to read. Remember, the reviewing committees will be reading many essays, and although you want your essay to stand out you do not want it to be hard on the eyes while reading. It is better to use your words to show your uniqueness, rather than complicated lettering. Use an easy to read font and size.
- If possible, double space your essay.

2. Now, regarding the **content**: You may be asking, "Where do I begin?" There are endless ideas and suggestions as to how to write a personal essay for scholarships. However the following suggestions may help to organize your thoughts and personal information into a concise and easy to read essay.

Create an Outline: Just getting started is often the hardest part. To begin, make an outline of the things you would like to say in your essay such as:

- Your educational and career goals,
- Why you have selected your stated major and career goal,
- Your life experiences which have influenced this decision,
- Your anticipated role in society after your career goal has been achieved,
- Why you need the scholarship or any unusual circumstances which may affect your current financial situation,
- Anything else you feel the Scholarship Committee or Donor needs to know about you in order to present yourself as the best candidate for the scholarship.

Write your essay: Next, you need to organize the outline into an essay. The following is an easy guide to help you arrange your ideas and thoughts into a well thought out essay.

1. First Paragraph: The first paragraph is considered your introduction.

- a. The introduction is often the most difficult to write. It may be a good idea to start on the body of the essay and come back to write the introduction later.

Classical Scholarship and Its History Stephen Harrison, Christopher Pelling, 2021-04-06 It is unusual for a single scholar practically to reorient an entire sub field of study but this is what Chris Stray has done for the history of UK classical scholarship His remarkable combination

of interests in the sociology of scholars and scholarship in the history of the book and of publishing and especially in the detailed intellectual contextualisation of classical scholarship as a form of classical reception has fundamentally changed the way the history of British classics and its study is viewed. A generation ago the history of classical scholarship still consisted largely of accounts of particular scholars and groups of scholars written by other scholars from a broadly biographical and heroic individual perspective. In these works scholars often sought to find their own place in the great tradition, choosing to praise or blame those whose work they admired or deprecated and to identify with particular schools or trends and there were few attempts to provide a broader and less prosopographical perspective. Almost all the chapters in the volume originated as papers at a conference in honour of the honorand and have been improved both by discussion there and by the rigorous peer review process conducted by the two experienced editors. It covers various aspects of classical reception with a particular focus on the history of scholars, their institutions and their writings; the main focus is on the UK but there are also substantial engagements with continental Europe and especially the USA. The period covered runs from the Renaissance to the present. The cast contains a number of world famous names. Unusually the volume also contains an essay by the honorand but we are very keen to include this especially as it focusses on the topic of scholarly collaboration.

The Scholarship of Creative Writing Practice Marshall Moore, Sam Meekings, 2024-01-25

The first study to explore deeply and intimately the complex and multifaceted nature of creative writing practice. The *Scholarship of Creative Writing and Practice* offers a new route in scholarly inquiry for creative writing studies, probing beyond pedagogical methods with which most of the field's scholarship is occupied to explore the writing life as it is experienced by a wealth of international writer academics. With academic creative writing programs beginning to adopt a more pragmatic, industry-focused stance, students of writing increasingly need and expect to complete their degrees moderately prepared to monetize the skills they have learned, so there is now more than ever a great responsibility to present studies, methodologies and experience that can inform students and instructors. In response, Sam Meekings and Marshall Moore have pulled together academic investigations from some of the most prominent names in creative writing studies to take stock of the diverse definitions and pluralities of creative practice, to examine how they have carved out a writing life, what work habits they have adopted to achieve this, how these practitioners work as creatives both within and outside of the academy and to put forward strategies for a viable writing life. Offering intelligent, philosophical, pragmatic and actionable methods for robust writing practice, this book provides a multi-national perspective on the various aspects of practice and process. Essays explore what writing practice means for individuals and how this can be modeled for students; how the mythic nature of creativity can be channeled through practical working habits; practice through the lenses of social responsibility, sensitivity, empathy and imagination; writing during times of duress and the barriers writers encounter in their craft; the demand of author platforms; the role of the creative writing academic; writer and the process of learning from published and practicing authors. Wide-ranging in its investigations and
