Writing Qualitatively Johnny Salda, 2018-04-09 *Writing Qualitatively The Selected Works of Johnny Salda* showcases the diverse range of writing styles available to qualitative researchers through the work of one of the most internationally cited and referenced methodologists. The traditional academic journal article still holds its place as a convention of published scholarship but Salda illustrates how a variety of approaches to research documentation can evocatively represent social life and one's self in intriguing ways. *Writing Qualitatively* assembles journal articles, book chapters, ancillary materials, texts from keynote addresses and previously unpublished work that illustrate Salda's eclectic body of inquiry. Each piece is prefaced with author comments on the selection and how readers themselves might venture into comparable writing styles. Multiple methodologies and writing examples are included, ranging from case studies to action research, from poetry to ethnodramatic play scripts, from confessional tales to autoethnographies and from textbook materials to classroom session designs. An introduction to the collection discusses Salda's writing processes and how qualitative researchers and educators can extend their own imaginations and creativity to find new forms of scholarly presentation and representation. *Writing Qualitatively* serves as a supplemental text for undergraduate and graduate courses in qualitative inquiry, educational research, ethnography, and arts-based research. This unique anthology demonstrates to students, professors, and professional researchers how academic scholarship can be reported through a breadth of literary genres, elements, and styles. **EARLY**

CHILDHOOD CARE AND EDUCATION SEN GUPTA, M., 2009-11-03 *Early Childhood Care and Education* ECCE programme has gained importance today. Driven by socio-economic compulsions, these days both parents seek jobs and remain away from the child for the whole day. Early Childhood Care centres provide them a safer alternative where their children can grow and develop in a stimulative environment. Therefore, ECCE has been comprehensively included in teacher training programmes at all levels. Designed as a text for the undergraduate students of education (B Ed and elementary education) (B El Ed), it provides up-to-date and ready-to-use material. A complete section in the book is devoted to planning a pre-school or ECCE centre, organizing and managing it for its optimum utility and efficient functioning. The effort has been made to include the topics which will help students to understand the ECCE and its functioning in a straightforward and unconventional manner. **KEY FEATURES** Written in a conversational style. Comprehensive coverage with sample activities. Numerous figures and illustrations for better understanding of the subject. Integration of theory and practice. The book would also be extremely useful to the nursery school teachers, teacher educators, parents, postgraduate students of education (M Ed) and for those who would like to run an ECCE centre as a good reference material. *Resources in Education*, 2001.
